Keremeos tops list for new ambulance housing

A meeting held in Keremeos on February 15 aired the concerns of the ambulance personnel. One of the major concerns was the accommodation for ambulance vehicles and equipment, which share Keremeos Fire Hall premises. According to union representative Dave Walchuk, management has been short of funds for capital projects, and Keremeos was bumped to the top of the list for rebuilding. He expects tenders to be let this spring for construction during the summer months.

Other matters arising during the meeting involved the lack of clarity in the union agreement as it pertains to part-time ambulance employees. Walchuk stated the contract clauses are subject to interpretation, and the interpretation varies from one location to the next.

"Each town works on different rules, depending on how it is interpreted," Walchuk said.

New, clear wording has been negotiated in the present round of contract talks. BC Ambulance personnel are still in a strike position, but the new wording has been agreed upon.

"This will go a long way toward rectifying the problems addressed at the meeting," Walchuk stat-

Walchuk said Keremeos is somewhat "unique" in having no fulltime staff. He said it was unusual for him to be answering questions from the press regarding a meeting which took place among personnel, as management and union work together to solve problems internally. The News Leader had

Credit Union plans move

Valley First Credit Union employees have taken up the challenge begun by CIBC to raise money for Princeton General Hospital and Ridgewood Lodge Foundation. Vancouver conference features Vermilion Court housing project

Joyce Fraser, Executive Director of Princeton & District Community Services, was one of the guest speakers at this year's Continuing Care Conference in Vancouver. The theme of the conference was "Solutions, Innovations, and Best Practices." Fraser's report covered the 10 long years of planning, lobbying and fundraising to bring the Vermilion Court project from dream to reality. She outlined the general description of the facility, the number of units, how tenants are selected, what support services are provided, costs of services, what works well, and what Community Services might do differently if the society had to do it again.

Fraser said it was an exciting opportunity to showcase Vermilion Court.

"It's obvious that this type of housing is the way of the future." Fraser said. "BC Housing is proud of our project and continually sings our praises as our development was the first to be built in the province. The project is successful because of the partnership of BC Housing, Ministry of Health, local municipal government, and the society. The

funding for the common area was the result of the generous donation of the Rebekah Housing Society and the entire community which raised \$212,000 for furnishings, kitchen and dining equipment."

Fraser made the point that supported housing combines secure, Continued on page 2

- Construction on new building starts

Princeton - Valley First Credit Union has planned a new building for the corner of Tapton Avenue and Bridge Street in Princeton. Tenders close this week and construction is expected to commence this month. The new building will provide added customer service and office space required by Valley First. Its present location at the corner of Bridge Street and Halliford Avenue is no longer adequate.

Construction will continue through the summer months. The anticipated date for occupancy of the new premises is late September or early October. The new building will complete the development of Princeton Plaza and provide credit union customers with additional parking.

RCMP seek witnesses to pedestrian injury

At approximately 6:00 p.m. on the evening of Monday, February 26, an elderly Princeton woman dressed in a B.C. Lions football jacket and black jogging pants was walking along Tulameen Avenue in Princeton when she was struck from behind by a vehicle. She suffered broken bones in her hand and minor scratches. Two women stopped to assist the victim but did not leave their names.

Police would like help from the public in this case. Police would like the women who helped the elderly woman to come forward. If anyone saw anything that evening related to this incident, please call Princeton RCMP Detachment or CrimeStoppers.

Quake shakes Similkameen

Similkameen Valley residents felt that funny rock and roll feeling on Wednesday morning, February 28, when our share of a 6.8 earthquake rolled through the valley. The quake occurred at 10:55 a.m. in a location 10.35 miles northeast of Olympia, Washington. It was at a depth of 33 miles which, according to experts, prevented more serious damage occurring on the surface. Had the quake been closer to the surface, they stated the damage would have been severe.

The earthquake was of a magnitude considered in the range of moderate to severe. Although there were quite a number of people injured in the Seattle, no deaths were reported. A considerable amount of structural damage was done to older buildings in the downtown core of Seattle, and the dome of the state capitol building in Olympia was cracked and a number of older buildings damaged.

The quake was felt strongly in the B.C. lower mainland area and on Vancouver Island. Mild aftershocks followed the initial quake, but these were not felt in the Similkameen Valley.

Fall Fair

ommittees start fair work

The March 1 Fall Fair meeting set the committee structure for the 2001 fair, slated for September 8 and 9. Over a dozen committees were identified and many people volunteered to serve on committees or as convenors.

The entertainment committee, consisting of Garnet Woodford, Patti Harrower and Paul Gabriel, will define entertainment for an application for the Hey Wagon for this year's fair. Due to the low level of funds in Fall Fair coffers, the entertainment committee will be looking for volunteers to provide entertainment during the fair.

Val Kjarsgaard and George Elliott will book vendors and do the layout for the fair.

Amber Patenaude will be Head Convenor, and will receive assistance from a number of people. Mimi Kurz volunteered to convene the flower display. Diane Schneider will do Registration, Garnet woodford will convene Beer and Wine, Noreen Barkley will convene leisurecrafts and

A B.C. Fairs workshop will be held in Vernon this month. Those who are interested in going will receive a grant from B.C. Fairs. Several people expressed interest in attending, as it is beneficial to our own fair, but nobody was certain. They will make arrangements through the executive.

There was some discussion with George Elliott in his position as PXA President about plans for improvements to the grounds. The Fall Fair and PXA will work together on plans for the coming year.

Tulameen faces water shortage problems

Trading Post, then the Community Hall, since then several houses have had problems even trying to do a load of wash. The beautiful winter we have had is paying it's toll. The low snow pack and the total absence of rain last fall has dropped the water level to an all time low. The problem at the Trading Post and Community Hall was solved with

The first to run dry was the drilled wells and submersible pumps and this may be the solution for many residents. The citizens of Tulameen have got by for many years on shallow dug wells, some as shallow as 19 feet, but this year the water is definitely below the twenty foot mark and unless we have a monumental snow storm in March and a slow thaw, the well driller will be busy this spring.

Community Hall needs a new floor

The Community Club Hall in Tulameen is showing it's age, the floor is falling apart and the icicles on the back roof have reached the ground and taken over. It was decided at the March meeting of the Community club that the floor would be replaced and the back of the building would go under major renovations to help solve the problem. It is also the hope of the members to get some more storage space at the back of the hall and under the stage,

Rodeo grounds undergo major renovations

by Jimmy Olsen

Renovations to Keremeos rodeo grounds are tentatively scheduled to go ahead in about a week's time.

"The steel seat frames have been ordered and the cement foundation will be poured soon, said Joe Reichert, Elks Rodeo organizer. "We've taken out about 115 of the old bleachers but the ground is still too damp to be doing any heavy work."

Reichert and his crew are working on new signs to be erected on the highways at the entrance to the Village but there is a chance they will not be finished this year. The rodeo crew is considering plans to add more sand to the center of the arena as the compound now in there is packed and hard.

There is an opportunity to purchase a steel building, but this will be a major project as the building will have to be taken down at its original location, then moved to the rodeo grounds and reconstructed. This is still in the planning stage – do not look for it any time soon.

Grounds clean-up will be starting soon in preparation for the rodeo in May.

Garden Club elects new executive for 2001

Similkameen Garden Club held its annual general meeting Wednesday, February 14. The new executive is: President - Velma Bryant; Vice-President - Lani Kelm, Secretary - Angie Moran, Treasurer - Shirley Douglas; Directors - Harry Blakeborough, Carol Jenson, Linda Lee and Marie Cannon.

Plans for spring planting are well in hand. The group plans to spell out "Keremeos" in red Salvia surrounded by white allium in the flower bed at the Information Centre.

The club held a silent auction/whist drive fundraiser at Victory Hall on February 20 to help finance downtown beautification. The club provided coffee, tea and goodies and a good time was had by all. Don Hebert was the winner of the whist tournament.

Some of this year's plans for the spring and summer include a bus trip, a winery tour and picnic, the annual barbecue and a trip to O'Keefe Ranch.

The club meets the second Wednesday of the month from September to June at 7:00 p.m. at the O.A.P. Centre on 7th Avenue in Keremeos. Meetings often feature interesting guest speakers. The club meetings are always informal and are open to every-

Village of Keremeos Chief Administrative Officer Eileen Oliver-Bauer says there will be another public hearing soon into the Parson rezoning. She has recommended that the municipal council instruct the municipal solicitor to prepare the covenants, at the owner's expense, provided the owner agrees with these covenants. The Ministry of Transportation and Highways have stated they will require a Road Reserve Covenant prior to approving the bylaw.

Owner of the property in question has applied for rezoning to build a "halfway house." If the property is rezoned, then it can be used for that purpose only. No other business could be run from

by Jimmy Olsen

The thirty-sixth annual Easter Sunday Chopaka Jackpot Rodeo is planned for April 15, 2001. The new start time is 10 o'clock in the morning. The rodeo will be one day only and all events will be run on Easter Sunday.

Organizers say the Wild Cow Milking Contest will be the event to watch. It is limited entry, as freshened cows are hard to come by Junior Cow Riding has been changed to Junior Breakaway due to limited entries. All other events will go as planned.

AgAware Contest: Sing a farm song and win money

AgAware BC will reward and recognize top local singing talent in an expanded provincial competition of song to celebrate the people, places, and events that bring consumers locally-grown products. Three winning choirs or groups, three winning soloists and one winning barbershop quartet or chorus will be announced for the province and honoured at a gala of about 400 industry and community leaders in North Vancouver on October 12. Regional finalists will be announced for seven B.C.

In addition to framed certificates and prizes of \$250 cash per group, or \$100 per soloist, one overall winner will be singled out with the first Golden Rooster Award for best AgriSong. Winners may be asked to perform at the Golden Rooster Gala, touted as the Oscar awards of the B.C. agricultural industry.

AgriSong is open to any B.C. choir, group, barbershop quartet or chorus, or soloist singing in any musical style, be it timeless classics, hip-hop or rap. The purpose is to spread agriculture awareness.

Entry forms and details are available on the AgAware BC web site www.agaware.bc.ca or call the co-ordinator at 604-924-4804.

Skaters put on a great show

Fifty Years of Rock 'n' Roll was a great showcase for the talents of the skaters in Princeton Figure Skating Club. Princeton arena shines with a whole new look when the figure skating carnival takes over. Lights along one side, darkened ice, stage curtains, and spotlights set the scene for the numbers done by the skaters.

This year's show was dedicated to the memory of Adele Nesbitt, who worked diligently for the club for eight years. Proceeds from fundraising at the show will go to the Adele Nesbitt Hospice Society.

Soloists for the club were Chelsea Turner, Rachel Jung, Wesley Wong, David Bell, Lynn Smart, Deanna Wong, Brittany Antonick, Breann Phillips and Diane Wentland. Chelsea Turner and Wesley Wong performed well in a delightful Dutch Waltz. Breann Phillips and Deanna Wong did a pairs number, and Diane Wentland and Brittany Antonick presented a skit on ice to "I Can Do Anything". Chandra Darel and Lindsey Nesbitt wowed the crowd as they played two cowboys in an excellent pairs performance done to "Chattahootchee."

Senior skaters opened the show with a large group performance, followed by the Learn to Skate tiny tots led by Amanda Wentland and Breann Phillips. The little skaters take a long time to cross the ice and often need a helping hand from the older leaders.

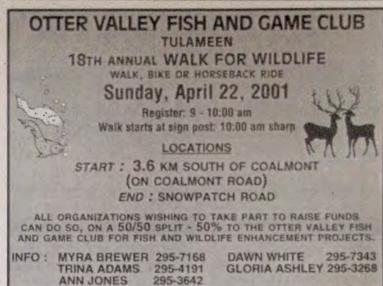

Canskate B did the actions to the "Bird Song", and drew a lot of chuckles, and went on to do two more performances in the program, an excellent effort by these youngsters.

Coach Donna Crawford and the executive outdid themselves with choreography and costumes for the young skaters. David Badger returned as Master of Ceremonies, a job he does well.

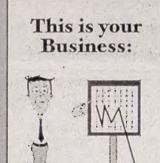

Princeton Figure Skating Club can give themselves a pat on the back for another topnotch show.

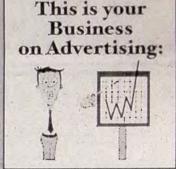

Once again, Overwaitea Princeton handed out jackets to a minor hockey team. This time, they gave jackets to their own team, the Overwaitea Tykes. Left to right, standing: Coaches Ty French and Kory Krenn, Overwaitea manager Len Steenson and co-manager Dave Palumbo and his son. Hockey players are, back row, Nathan Garton, Ian McKenzie, Melissa Morosse, Kody Krenn, Taylor Esselink, Keaton Ashley, Milen Wilkinson. Front row: Graham Bibby, Kendrick, Josh Coyne, Craig Leochko, Colby Williams, Rett Ortwein. Lying on ice: Goalie Jonas Montgomery.

Don't Let Volatility Keep You Out Of The Market If you invest in stocks, you know that the market has been taking investors for a bumpy ride lately. What's going on here? In a word: volatility. And it can be unnerving. How can you avoid the type of "reactive" investing that is caused by market volatility? Consider the following ideas:

Give Diversification A Chance To Succeed

Diversification is essential to investment success. But it is not a "get-rich-quick" strategy, in a well-diversified portfolio, some of your holdings will be going up, while at the same time others may be going down. This may not lead to sustained periods of tremendous growth, but, over time, you could be protected from downturns that affect just one area, and you'll give yourself a wider range of opportunities for

Don't Overreact To Temporary Setbacks

Different sectors go through periods of ups and downs. For example, the current market environment has been difficult in general for financial services, retailers, health care companies and consumer goods. Should you sell your holdings in these areas? Before you do, you should realize that these sectors experienced a similar downturn in the early 1990s - and investors who pulled out then eventually missed a period of tremendous growth. Today's long-term outlook for these sectors remains

Seek Good Companies At Attractive Prices

It sounds simple, but too many people ignore this basic axiom of investing. Try to find those companies whose management is strong and whose products are well positioned for the future. And look for companies that are reasonably priced, as measured by their price-to-earnings ratio and other factors. Remember, the higher a company's P/E, the more you are paying for its expected growth - and the greater the downside potential.

Look Beyond The "Hype".

Sometimes, one particular market sector will seize most of the investing public's ttention. Right now, it's technology. Unfortunately, attention isn't always knowledge. The truth is that many areas of technology do offer tremendous promise for investors. in the long term. Health Fair for Preschoolers

If you know any kiddies between the ages of 0-5 years old, you will want to attend an event happening in Princeton on March 27. Princeton's Infant and Child Care Committee has spent months planning our first Preschool Health Fair.

The fair promises an exciting afternoon of fun and learning about health, play and growing up in the early years. Anyone who is involved in looking after youngsters is invited to gather the children together and take a look at what the fair has to offer. It will be from 2:00 p.m. to 7:00 p.m. at United Church Hall and is absolutely free! There will be free snacks, super goodie bags, great door prizes, "cool" face painting and other wonderful prizes. Be sure to mark the date on your calendar. You won't want to miss out on the fun!

Next week we will look at the many partcipants who will share their talents and skills in all areas of child development and safety. You will have a chance to meet out-oftown visitors as well as the folks who work here every day. Take this opportunity to be informed about the services in our town and region to help care for the smallest members of our community. For information, call Penny 295-3133.

The worst kind of smoker may avoid tobacco

There are people who appear to be non-smokers, but behind closed doors, they smoke something far more damaging to their health. They smoke marijuana leaves, known as pot, weed, grass, etc. Harvard Medical School studied the effects of smoking marijuana, and found that, because the smoker inhales deeply and holds the smoke longer than a tobacco smoker would, marijuana smoke causes severe damage to the lungs. Marijuana use can lead to bronchitis, emphysema and lung

Par more dangerous than the damage to the lungs is the damage to the immune system. The resins in marijuana that lead to impairment are very damaging to the immune system, which also contributes to the inability of the body to fight disease. Studies showed the immune system weakened by 40 percent. Damage to the immune system shortens lifespan.

Another characteristic of smoking marijuana seriously endangers lifespan. Following use of marijuana, the user's reaction time and co-ordination are seriously impaired. In fact, marijuana use impairs function for several hours. Operating equipment, such as automobiles and industrial machinery, can lead to accidents which may cause permanent disability or death.

The psychological reaction to marijuana may result in early death, too. The user may experience acute anxiety followed by paranoia, Paranoid reactions can often lead to aggressive behaviour toward others, with the possibility that the user may meet aggressive opposition resulting in injury to the user.

Fortunately, marijuana smokers have the choice to quit and improve their chances of survival.

Habitual users generally lack ambition and direction, which may lead to neglecting health, and causing early deterioration in fitness.

Withdrawal from habitual marijuana use will result in anxiety, insomnia, tremors and chills, but the result of abstinence will be longer life.

Employees of the Princeton Branch of Canadian Imperial Bank of Commerce were proud to present a \$10,000 cheque to Princeton General Hospital and Ridgewood Lodge Foundation. The corporate donation was made as a result of CIBC Princeton manager Lynn Holland submitting a request to the Community Office of CIBC in Oliver. The request was forwarded to corporate headquarters in Toronto, where it was approved. CIBC wore pyjamas for a month

Wearing pyjamas to work can be fun, especially when it is for a great cause. Employees of the Princeton branch of Canadian Imperial Bank of Commerce wore pyjamas, robes, and other hospital garb every Friday during February to encourage their customers to donate to Princeton General Hospital and Ridgewood Lodge Foundation. Every person

who donated had his/her name entered in a draw for items donated by local businesses.

Donations to the Foundation totalled \$1,734.25.

Raffle winners were: Evelyn Prystupa - Overwaitea gift basket; Linnea Stevens and Joy Walker two beanie baby teddy bears from Forget-Me-Not Antiques; nurse and doctor teddy bear and chocolates from Pharmasave; John Duckham - Esso gasoline gift certificate; Randal Van Eijnsbergen an "ocean" wreath donated by Marg Obey.

"We have the greatest customers," Lynn Holland, CIBC manager commented. "We want them to know how much we appreciated their participation." The challenge now goes to Valley First Credit Union.

Women were disappointed

Princeton Business and Professional Women's Club members expressed disappointment in Councillor Dan Sulentich's opposition to the proposed park along the Similkameen River. The club met on February 27 for the Annual International Night potluck supper and meeting. The park was on the agenda to plan action this spring.

Club members looked at other plans for spring, including a request from other clubs that the regional spring meeting be held in Princeton once again. The decision was not finalized as the club must contact the owner of the facility requested for the meeting.

NOTICE OF CORRECTION

The Notice of Annual General Meeting was issued to the membership of Valley First Credit Union February 26, 2001. Contained within the Notice were the Nominees for Board of Directors Elections scheduled to take place March 12th to 17th, 2001.

Due to a transmission error, the Notice contained incorrect information in the biography of Colleen Lister, CGA. The Biography stated that Colleen is a principal with the accounting firm of Kemp Harvey Lister Inc.

This should have read that, "Colleen Lister is a principal with the accounting firm of Harvey Lister Inc., Certified General Accountants."

In addition, the notice stated that she is presently
President of the Penticton-Okanagan Rotary Club, and
previously served as Treasurer on the Board of the Child
Development Centre for several years. This should have
read, "She is a past president of the Penticton-Okanagan
Rotary Club, and has been an active member of the club
since 1994. She was treasurer on the board of the Child
Development Centre for several years."

We apologize for any inconvenience these mis-prints have caused. For complete details of the Election, please visit our website at www.valleyfirst.com

Safe change for baby in pregnancy

After the seventh month, if the fetus does not move into a head-down position, it is considered to be in a breech position. Breech positioning of a fetus causes inutero constraint to occur. In-utero constraint is a term describing physical stress and pressure placed on a growing fetus due to the fetus being positioned incorrectly. These stresses may be any combination of stretching, compression, twisting, or bending.

Dr. Warren Gage

The fetus grows seven times more rapidly than an infant, so it is very important that stress on the fetus be minimized. As structures grow, these unnecessary extrinsic forces may lead to bone, cartilage, muscle, and ligament deformity.

When a breech position is discovered, medical specialists will occasionally attempt to forcefully change the position of the fetus through pushing on the mothers abdomen. This occasionally forces the fetus to move; however, may cause further physical stress on the unborn child.

A superior technique has been developed by a Chiropractor named Dr. Larry Webster. This is referred to as Websters In-Utero Constraint Technique. I refer to this as a superior technique because it does not cause any extra stress on the fetus from the doctor. It simply involves a gentle adjustment to the mothers low back (pelvis) followed by holding extremely light pressure in a specific location on the mothers abdomen. Usually after only a few adjustments, the mother will feel the fetus turn into the correct position.

Dr. Warren Gage is certified in Websters technique. For further information on this technique, or the possible complications of breech positioning Dr. Gage may be reached at 295-7015.

thought. I thank everyone again for attending and participating in our presentations.

I was very pleased to read a letter to the editor last week from Pastor Peter Rytkonen in regard to his feelings on our youth and his personal pledge to be the best asset builder he can be. I read, too, that two Town Council members made a special point of praising the Girl Guides, Brownies and Sparks for their efforts toward the Crisis Assistance in their annual Hike for Hunger. This is asset building at its best. Any time, and any way, we can praise and acknowledge youth for their efforts, any time someone makes a personal commitment to become more involved with youth, and any way we can involve youth in any activity, we are building assets. To wrap up our presentations last week, we had each participant fill out a personal "Asset Builders Pledge." These pledge sheets are available at my office at the skills center at anytime. Perhaps a good next step would be to have each resident of Princeton pick one up and fill it out. Maybe we could even display our pledges at a public place to share with the community an to show our children and youth we are all do care about them, or I could include one or two in my newspaper articles.

There are endless possibilities and ideas that can be tailored to fit any business, organization, or personal situation. Just make a conscious decision to show young people that you care, that you value them, and that you want to include them in your life in some way. One of the great stories Keith Pattinson shared at our presentation on February 15 was that one businessman pledged to never pass by a lemonade stand without stopping to purchase a cup from the young entrepreneurs. Another was about a garbage truck driver who stopped weekly to converse with, and listen to, a lonely young man who had no one to listen to him. That young man became the author James Michener. He later attributed his success to that garbage truck driver who took the time to listen to his story telling. Each one of us has it within ourselves to make a positive difference to young people in our own unique, creative way.

We, the members of the Princeton & District Child and Youth Committee, are looking at recognizing a local "Outstanding Asset Builder" weekly or bi-monthly. With their permission, please look for these names in my articles including why they are being acknowledged. I hope that sharing these stories will show everyone how many of us are natural asset builders and will inspire us in a variety of ways.

We thank this newspaper for its excellent coverage of asset building. Thank you for reading this - it shows you care about our young

Golf Club raises dues

This is nature's art. Can you guess how it was created? Photos courtesy of Rosemary Doughty.

Princeton Golf Club has raised its annual membership dues by five per cent. A single golfer will pay \$504 to golf. The one time fee for membership, called an initiation fee, is \$800. In addition to dues, members will pay a \$100 surcharge once again. This should be the final year for a surcharge.

At the annual general meeting, members elected Keith Later as President, with Stan Hiebert as Vice-President. Lois Simpson is Treasurer and Kay Carpenter is Secretary. Directors are Glenn Weissbach, Gordon Comeau, Tom McLaren, Sharleen Clifton, Dinny Mullin and Larry Stevens, Jr.

There will be an official opening of the back nine on June 23, although the club expects there may be golfing on the new nine by the May long weekend. Golfing will begin as soon as the snow is gone, probably in early

Retiring President Glenn Weissbach said how much he appreciates all the work done by volunteers during the past two

"It was a tremendous undertaking," Weissbach said.

Guide to the Trans CanadaTrail is in the making

There is good news about the Trans Canada Trail route through B.C. By spring 2001, people will be able to follow a route from Victoria to the Alberta border, over 1,750 kilometres of uninterrupted Trans Canada Trail.

Farlier this year, Trails BC, the volunteer organization in charge of asembling the B.C. section of the Trans Canada Trail route, approached a few mapping companies to prepare maps of the route. Mussio Ventures Ltd., the publisher of the popular Backroad Mapbook Series, jumped at the chance and volunteered their time for the project.

After some initial research, the publishing company quickly realize that the route was relatively unknown and in desperate need of exposure through most of the province. They offered to help put a book together on the route through British Columbia and Trails BC accepted. Partial proceeds from the book Trans Canada Trail, The British Columbia Route, will go to Trails BC to help maintain and establish the Trans Canada Trail route through B.C.

Trout Talk

Since this agreement was reached, the two organizations have been working closely together to describe an uninterrupted Trans Canada Trail sanctioned foute from Victoria to the Alberta border. Trail users need to be aware that there are still many sections that are interim routings and not all trail users can follow every section. Work will continue to improve the trail location, amenities, and the direction and interpretive signs along the route.

According to Leon Lebrun, Director and Chair of Trails BC Southwest Region, "Things are looking freat in B.C. We already have an exciting trail that connects communities and greenways using existing and new trails, abandoned railway beds and radways."

Lebrun is the first to admit that the project has been a monumental task for their volunteer organization. Private land owners, corporations, municipalities and government all have legitimate issues to resolve when embarking on such a project.

Travellers will not always find a classic trail that winds through

pristine settings. They will find a variety of surfaces through many different settings. From sidewalks and roadways to railbeds and rural and mountain trails, the route is being designed to give us a flavour of our great man-made and natural heritage. En route, travellers should experience a great variety of features that make up our communities, parks and

Trail opportunities

The Trans Canada Trail is more than a long distance route. Each region has several different section with a variety of trailheads or staging areas. This means the route can be done in shorted dayuse sections by any of the five different trail users including hikers, bikers, equestrian riders, crosscountry skiers and where possible, snowmobilers. Trails BC hopes to have transit operators (such as Translink or Westcoast Express) to put out brochures on how to get to various trailheads. This will allow people to use the route in sections without having to retrace their steps.

The route offers opportunities for many tourism-based companies.

Tour operators can offer shuttle service and guides, while bed and breakfast, and motel owners, and even regional attractions can open their doors to a unique form of traveller. For this reason, Mussio Ventures Ltd. is approaching travel related companies in the vicintiy of the route to see if they are interested in being included in the

Trails BC hopes to establish a Trails Awareness Week in British Columbia. In addition to launching the guidebook, they plan to

unveil more donor panels at trail pavilions and attract more trail building volunteers as well as local trail clubs to adopt sections of trail.

The Trans Canada Trail, The British Columbia route will be released in May, 2001, making it the first detailed guidebook on this fantastic national trail. Mussio Ventures is running a contest to help collect pictures for the book. Visit www.backroadmapbooks.com for more details on the

ice goes out on our lakes and streams. Mid-March would be my guess, judging by the reports I hear about the ice thinning on the highway lakes. These reports tellme fishing is really slow now. Denis tells me when he does get a nibble, the trout are not very enthusiastic! A few nibbles don't make for much of a trip, and certainly don't fry up well in the cast iron skillet!

So (and I should take this advice myself) why not clean up the tackle or fly box and get it set for iceout time? It always brings back memories for me when I sort through the flies and lures. That Green Highlander salmon fly tangled with used leader caught a five pound grilse in Big River last July! The beat-up orange and black spotted Helin's flatfish tangled with the Mapp's spinner looks like an old flatfish that caught my largest Brook Trout

ever. The homemade hunting knife in the large pocket in the old fishing vest, buried beneath a pair of gloves, and a Perrine fly box, the first fly box I ever bought, was "lost" for years. My very good friend Irving Cranston made it for me 35 years ago. What a relief when I found it! I had been sure I lost it on an ice fishing trip.

Good grief - the tube of Dr.Juice's frout scent paste, guaranteed to attract the big one to your fly, lure or bait, has the cap off! The contents are seeping about on the bottom of my Fenwick tackle box. Even I can smell the hormones and other secret ingredients. The pheromones, which make up the

magic paste, really reek! Which reminds me - why not check the worm box for dead angle worms? Now is a good time to check the lines on both spinning and fly reels. Fly lines get dirty and scuffed. Algae and other water compounds, oils, dirt, etc. collect on the finish and can be easily washed off with mild soap solution or better yet, a line cleaner. You can get it at the sporting goods

If you like to use a floater fly line, it is a good idea to dress the line with one of the good silicone line dressings. This will help the line shoot through the guides easily and helps it float better, too.

Mac's Auto parts lose nail-biter to Summerland

On February 25, Mac's Auto Parts hosted Summerland. The game was a good one with both teams having lots of scoring chances. With Jamie Dunford in net the first period went 2-1 of the opposition. In second period, the crowd saw Summerland score four goals to Princeton's three, ending the period with a score of 6 - 4. In third period, Princeton seemed to take control. With half a period to go. With one minute to go, the team made a last-ditch effort to tie the game by pulling the goalie. The players put on the pressure, hitting the goal post two or three times, but with 20 seconds left, Summerland managed to score on an empty net to finish off Princeton.

All of the Princeton players played a tough game, considering this same Summerland team beat Princeton quite ensily months

Horoscopes March 6 to 13

ARIES - There are some issues in your life you have to deal with regarding groups of friends, but these will go well because you are able to speak lightly and give no offense.

TAURUS - Your life seems a little less burdened this week but on the weekend you may feel tired and disheartened and upset due to your feelings. Rest, relax, and wait for it to pass in the next two days.

GEMINI - Opposition to your ideas grows stronger and more challenging, but you are still sure you are right. You may be smart to open your mind to other possibilities. Break old patterns now.

CANCER - There may be unexpected difficulties in your daily life on the job. Worries are the source of the trouble. Calm down! Work will go smoothly if you focus on promotional matters and communication.

LEO - This looks like a good week for you. You feel creative and want to build things or change things. You may want to enjoy more youthful activities, but job demands must be met first.

VIRGO - Partnership matters continue foremost in your mind. Career matters go well but are demanding. Look for money from insurance or government - it is there, but hidden. You will benefit.

LIBRA --Relationships with siblings are more active now. Partners feel positive toward you. Your focus is on employment, where the action is very challenging. You are focused on job and health.

SCORPIO - Life at home flows more smoothly but costs are rising. You may face financial difficulties, next week if you do not conserve your resources. News upsets you this weekend.

SAGITTARIUS - The weekend brings change, upsets, and unexpected problems on the home front. Try to keep calm. Problems will sort themselves out in a couple of months. Keep your temper,

CAPRICORN - Siblings and/or children are a source of worry. You may feel secretly angry or upset over some matter. Don't let petty things bother you. Job goes well but may be hectic.

AQUARIUS - Money problems will have to be addressed. A sister or brother will show compassion if you can talk about your problems calmly. A dispute with a friend will clear the air.

PISCES - You are in a week in which you must make a major decision regarding home and career. Decide how to bring it out into the open. A sibling may be helpful.

OUR VIEW

Government Health Guide costs were a waste of money

We have received plenty of irate feedback from local residents who have received their 400 page B.C. Health Guide book. The complaints come from those who bothered to take their books home from the post office. The people we did not hear from are those who threw it in the wastebaskets at the post office, but their disposal of the Health Guide certainly sends its own message.

There is nothing really wrong with the Health Guide itself. We have heard no criticism of the contents of the book. It is a typical general health advisory document similar to those most people have in their home bookshelves. The fact that the book was done by an American company is cause for concern! Surely there are enough people in British Columbia who can write and publish books that there was no need to go to a foreign publisher!

The big issue with the book is the 21 million health care dollars spent on it, and the eight million dollars budgeted for future expenditures to keep a hotline open. At the same time, we have paramedics in B.C. working overtime. Would the money have been better spent hiring more paramedics? Locally, we estimate the cost of sending a Health Guide to every household was probably \$40,000. While the government is happy to spend that money on a book, local needs, such as hospital equipment and the rescue truck, go begging money from local people to cover the costs our government will not cover! We have been told there is no money in government coffers to meet our needs, and then we receive a \$21 million Health Guide. Is this winter's last snow job?

We paid for the Health Guide, just like we paid for hospitals and we paid for everything else we received. We have every right to complain when our government spends health care dollars on reading material while we pay even more to buy furnishings, medical equipment, and emergency service equipment to save lives.

Parents says minor hockey is supposed to be fun for kids

Dear Editor;

This letter is in response to the recent suspension of Beau Wilkinson, Sr. Atom/PeeWee player. On Jan. 11, Beau and three other boys were kicked off the ice, never to be told why or if they were allowed back. For the following two weeks Beau continued to practice with the PeeWee and not with the Atoms, as we were waiting for an explanation from the coaches. To this day we still have not been told

Beau had a knee injury on Jan. 20. He was taken to the doctor on Jan. 22. On Jan. 24, we received a letter from the Discipline Committee for Princeton Minor Hockey stating that Beau had been suspended for the remainder of the year. The facts were that the boys had missed a practice on Jan. 18, and missed a game on Jan. 20. But to someone's error, there was no Atom game on that day.

In receiving information from the Discipline Committee, we also received many letters from Atom parents which the coach had asked them to write. I would like to know how any parent could be so disrespectful as to write the garbage they have written about two 11 year old boys? There have been a couple of parents who have apologized, saving they were sorry for writing those letters. A little late for that. They have damaged the credibility of two young boys who only wanted to play hockey, boys they know nothing about. If only before they jumped into writing these letters they thought of what the consequences would have been. Put the shoe on the other foot: how would they feel? I really hope all of the parents who contributed feel proud of themselves and yes, we know who they all are.

There was no advocacy for these children, no one ever came to talk to us parents or the children. I would like to know how PMHA could answer questions they never had answers to. The coaches, head coach and executive members seem to have misled a lot of people into thinking they had dealt with issues which have never been addressed. How can you answer questions without ever knowing the facts? In talking with other associations, they cannot believe the way in which this was handled. A Match Penalty including an injury would have gotten a child a minimum three game suspension, not three months out of hockey.

Minor Hockey states that it is there for the children, for them to have FUN. Well, in this experience, they forgot about the main people, the CHILDREN - quite a lack of communication. Many of their policies and Code of Conduct have been broken.

As parents, we have tried since the beginning of the year to get meetings, but no way. Someone always came up with an excuse

why we couldn't do it. If this would have been dealt with beforehand, and parents who were not involved had stayed out of things, Beau would probably still be playing hockey, the sport he dearly loves.

So, hopefully, we all learn a lesson. The next time someone asks you to write a letter against a child you don't know, think about the damage you are doing to that child and the family, damage that you will never see or know about. We must also remember: respect and fairness is a two-way street.

Sincerely yours, Glen, Michelle, Beau, Milen Wilkinson, Princeton, B.C.

Will we

miss those sports pros?

Dear Editor;

Recent news flashes tell us that the Nascar race slated for Vancouver is headed for Denver. The basketball Grizzlies are also heading south, destination unknown. Each time I read these headlines, they are invariably followed by how much money Vancouver and B.C. will lose as

Hockey parent looks for fair play

Dear Editor;

This letter is in regards to my son, Josh, and his teammate, Beau, being suspended from Princeton Minor Hockey on Jan. 24, 2001, for the remainder of the 2000/2001 hockey season. They were not only suspended from the Atom team but from the PeeWee team also.

Princeton Minor Hockey is an organization which is supposed to empower all hockey players involved in the sport. But for my son and his teammate Beau, this did not happen for them this year at all. Why? Ask his coaches and the organization as a whole. I do not know the answer.

One of the most obvious problems is total lack of communication. This stems from coaches to players, coaches to parents, and between members of the execu-

B.C.'s collective egos may be taking a beating, but let's get real, folks. Our economy will benefit by their withdrawal. The sport spin-doctors want us to believe that, somehow, sports franchises generate many magical dollars to benefit us all. Surely, if we stop to think, we must realize that there are only so many discretionary sports entertainment dollars. These dollars have been earned in B.C. and when we spend them to watch Nascar or the Grizzlies, that money leaves

To illustrate my point - how many Grizzlies, with their multi-million dollar salaries, are Canadian? If you said "none", you are right. How much of their grossly overpaid wages (read "our entertainment dollars") do you suppose they spend in our country? If you said "as few as possible", you are spot on. How many Nascar owners make Canada their home? None? Right again. How many6 Canadian drivers, possibly two or three? Lastly, how many of these so-called Canadian drivers actually live and spend their money in Canada? Zero. Congratulations, you've batted a thousand!

Yes, there is a dark side, we lose several hundred part-time minimum wage jobs, such as chambermaids, users and parking valets.

As a sidelight, don't you find it interesting that these major attractions are leaving Vancouver, where they stand to benefit from the huge tax savings promised by a new government? Shall we dry our eyes and give their departure a standing ovation?

Sincerely, H.P. Toews.

tive themselves. If there was a positive, or any, link of communication between the above-mentioned parties, none of this would have happened. According to the Sr. Atom coach, the boys were unco-operative with drills, unreceptive to coaching tips, and lacked commitment to the Sr. Atoms team. The Sr. Atom coach stated that this problem started on November 2, 2000, and if it did, then why has Josh's coach never contacted me to talk about this problem? How did the coach deal with the behaviour when it occurred? Coaches have to deal with 15 different players who all have different personalities and temperaments, so if a coach can't deal with it, don't coach!

On November 23, 2000, Josh, Beau and parents of both players were asked to meet in the minor hockey office. The head coach and one of the parents (who is also a coach) stated that the boys had to give 100% for the Sr. Atoms practices and games. The Sr. Atom team was their number one commitment. Both boys agreed, and that was the end of the discussion. At no time was it ever mentioned that both boys were disruptive in practices. The head coach never focused on the supposed "problem" happening on the Sr. Atom team. So where is the communication break-

On December 8, 2000, Beau's mother and I asked permission to attend the executive meeting. We stated our concerns regarding the boys playing for both Sr. Atoms and PeeWee teams. I also brought up that practices for the Sr. Atoms team should be altered to prevent boredom and be of

interest to all players and develop all player skills to the best of their ability. I have watched many Atom practices and they are geared to first year Atoms only. What about the other five players on the team – should they not be able to develop their skills, also? This is a team sport. According to the Vice-President, the skill level on the Atom team ranges from 2 - 9. If this is the case, then the coaches have to incorporate drills to suit every player on the team. So, what happened?

On December 15, 2000, the executive met to look into this problem and documentation was given to me and two other parents on January 20, 2001.

Then, On January 25, the Vice-President and registrar handdelivered documentation from the Discipline Committee meeting of Jan. 24. This letter stated my son was suspended, That was a shock, seeing as I was never informed my son was being taken to the Discipline Committee.

What parts of Princeton Minor Hockey's constitution were broken or violated? One was coach's Code of Ethics. Another is the procedure to take a player to the Discipline Committee. At the Discipline Committee meeting, nor at the appeal committee meeting, neither parents nor players involved were allowed to attend. Where is the fairness and freedom of speech? Who is to then be advocates for these two players? Definitely not the coaches, head coach, Vice-President or members of the Princeton Minor Hockey executive. The parents became the advocates and spoke the truth in Continued next page.....

Heart Food

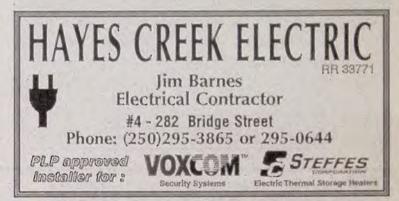

by Dave Machin

God is light, and there is no darkness in Him. The origin of light rests with God, for God is the very essence of light. Even as God created the sun for us to enjoy and benefit from its light, and live in the light that it produces for us, so we can see our way around naturally. He has created a light for us so that we do not have to live in spiritual darkness. Just as the light of the sun is not withheld from anybody, anywhere on earth, the light God's Son provides is not hidden from anybody anywhere on earth. God has no intention of keeping anybody in the dark, naturally or spiritually. Even as man is able to make very bright lights, in fact, big enough and bright enough to have sporting events under, people have endeavoured to make light substitutes to find their way in the dark. However, just as there is only one sun provided by God to produce light naturally, there is only one Son to produce light spiritually. The Son I am referring to her is "Jesus" of the Bible, who said, "I am the light of the world, he who follows me shall not walk in darkness, but shall have the light of life." His word, the Bible (Basic Instructions Before Leaving Earth) reveals His purpose which is to have His light shine upon and into any area of darkness in your heart. He wants to lead you out of the darkness you are in and into total, absolute light. Just as the earth needs the sun to sustain life, we need the "Son" to have life. Why not allow that light to shine into your heart? God is good, His word is good, and good all the time.

unofficial official visit to India followed by the taxpayer paid trip to China. Then there's the Carrier lumber scandal with possible more to come.

Why this province needs an election

More upsetting still is his Grizzly Bear Ban. Why? Now the NBA Vancouver Grizzlies are leaving. What a basket case this is now. If the grizzly isn't bad enough, the Vancouver Province has characterized one of our politicians as a skunk in one of its cartoons. That's not very nice! Why drag that poor animal down to our level of politics? But when was the last time you held and caressed a skunk in your arms.

Our MLA Mr. Lali quit Cabinet because he says Mr. Dosanjh doesn't listen. I believe Mr. Lali. I'll tell you why. I can turn off my hearing aid and I can still hear the people loud and clear "we want an election."

Mr. Dosanjh's regime is only supported by 20% or less of the B.C. citizens. Why a political party would pay BCTV \$7,000 to have Mr. Dosanjh talk to himself, I surely don't know. Had to be the NDP were following their textbook teaching on fiscal responsi-, bility. By the way, the earthquake aftershocks we felt were not from Seattle but from Mr. Dosanjh's. whoppers (as recorded in the press) in his speech.

You wonder how these political parties get their meaningless names e.g. Socreds, New Democrats, etc. Apparently they are obtainable from a nondescript delicatessen on south Granville in Vancouver that specializes in spreading the baloney.

The serious question, however, is how to get Mr. Dosanjh to call an election. Simple - we need a woman in the kitchen, one with the tenacity of a female canine Jack Russell to nip Mr. Dosanjh in his critical political parts until he releases his death grip on power and calls an immediate election, allowing a new government an early spring start in tending the Province's business. The lady who could do this with Mr. Lali's help is Cabinet Minister Joy McPhail. She told Glen it was time to go, and he's gone. She had the guts to end the fast ferry fiasco. Ms McPhail could make it very clear to Mr. Dosanjh "It's over, fini." We want a credibly elected political environment.

Parent seeks fair play

letters to the appeal committee and it got us nowhere.

The Discipline Committee meeting held on Jan. 24/01 stated two facts: (1) Jan. 18/01 - players A and B practice with PeeWee team and not with Sr. Atoms and (2) Jan. 20/01 - players A and B play for PeeWee team and did not play for Sr. Atoms (there was no game for Sr. Atoms - it was cancelled). Parents of the Sr. Atom team also wrote letters for the Atom coach on Jan. 21/01 regarding these two players and these were given to the Discipline Committee.

I have been involved in minor hockey for seven years and never would I write a letter about any player on either of my sons' hockey teams. Did these parents who wrote letters not think of what the consequence might be for these two hockey players? Obviously not! I hope that all of the parents who wrote letters are never put in this situation because then they would know how it has not only affected these two players but also their family, both emotionally and mentally.

At the Discipline Committee meeting, questions were asked by the Discipline Committee and the Vice-President gave incorrect answers to the questions. Where is the fairness in this whole situation? Both the Discipline and the Appeals Committees wanted to remain anonymous because the Vice-President stated that they were respectable citizens of the community. If this is the ease, then how can they make such a

severe form of discipline for these two boys when they were not given the correct information? I hope all of the people on the Discipline and Committees can live with the decision they handed down to these two eleven year olds boys who live for the game of hockey.

One last point - respect. Respect is a two-way street. If coaches respect players, then the players will, in turn, respect their coaches. If the Sr. Atoms coach respects the two suspended players, then why did they not get a jacket from Overwaitea when all other team members did? This shows no respect by the Sr. Atom coach to these two players.

These two boys just wanted to play hockey and be a member of the team. Who failed them? Why did it have to come to this? Debbie Scarpelli and Josh Scarpelli

Free news could be a crime

Reading news for free could be a crime. Princeton RCMP received a report of stolen newspapers. It seems in the wee hours of the morning, someone is making off with newspapers after they have been delivered to customers. Police remind that person or persons that taking the newspapers is considered theft. The value is not the issue. These thefts are occurring in the downtown core.

Ms. Brewer, left, took her class from John Allison Elementary School to the landfill and recycling depot to learn where garbage goes. Bonnie Olsen, right, explains to the students about what is recycled and how much is recycled. Students were impressed with "tonnes" of recycled materials.

Students learn about landfill, recycling

Students in Ms. Brewer's class at John Allison Elementary School took a trip to Princeton's landfill last week to find out, first hand, what landfills are about, and why it is important to recycle.

Bonnie Olsen showed the students all of the kinds of things that can be recycled. They were surprised to learn cardboard boxes can be recycled. They asked intelligent questions, Olsen said. They wanted to know how many tonnes of paper were shipped, how much glass came in each day for recycling, and what Olsen did with all of the recycled materials. She showed them around the Recycling Depot.

From the recycling area, they went on to the landfill, where contract operator Wayne Crimmon explained the various goods disposed of at the landfill, including the huge heap of metal wastes containing refrigerators, bicycles, washers and dryers.

Crimmon drove a large earthmoving machine to demonstrate how garbage is compacted. He squashed a television set, which left a strong impression in the student's minds.

Each had written a note and signed it, and pasted it on a big page.

Rebekahs plan Paddy's Day

Sister Marion Marsel, D.D.P., presented a questionnaire which made us think and helped inform us in the regulations of our meet-

A contribution was made to Rebekah Housing. Each member donated to this cause.

A cheque for last year's bursary recipient was issued and a pledge made to donate a bursary to a graduating student this year.

Sister Adelle MacDonald read us the story of the geese, how by flying information they helped each other. We are urged to follow their example in helping.

How nice it was to hear from Sister Diane Corriveau and learn she is keeping well and happy, and great to hear Sister Grace Steele and Sister Lorette Blows are doing well.

Sister Betty Golovin and Sister Shirley Hill are now back in circulation following their illnesses. Several Sisters have received colorful postcards from beautiful Hawaii where Sister Caronen is visiting.

Lovely sandwiches, cakes and cookies were much enjoyed around our tea table. Sister Golovin won the table draw.

Our next meeting is St. Patrick's theme. Rumour has it that a few Irish lassies may attend. Who knows?

Crimmon and Olsen were delighted when they received a huge 'thank you' note from the class.

Art instructor Linda Anderson (standing) works with Grace Lawrence, who was the star of a Penticton art show featuring works by visually impaired artists. See story.

Hedley artist teaches visually impaired

by Joseph Dubé

Linda Anderson, a Hedley artist who is an instructor at the Princeton Senior Citizens Centre, co-ordinated an art show for the visually impaired on February 9 and 10 at Leir House in Penticton. Anderson is a volunteer for the Canadian Institute for the Blind (CNIB). The art show showcased the abilities of people with vision impairment as part of White Cane Week, February 4 - 10. The show accepted many forms of art - photography, woodworking, quilting, poetry, painting and others.

For many years, Anderson has enjoyed painting and has taught students who are visually impaired. She is developing techniques for painting that can be used by painters who have very little remaining vision. In

Princeton, she has been devoting a lot of her time to teaching Grace Lawrence a new simplified method of painting. Lawrence has used it successfully in two completed paintings.

The art show featured a machine called The Aladdin Rainbow, demonstrated by Janet Powell. Low Vision Specialist. Grace Lawrence uses this machine in her home. It greatly amplifies writing or art work shown on the horizontal part of the screen while displaying the object on a vertical screen. Lawrence uses the machine to write letters, sign cheques and create art.

This technology can be used by people suffering from age-related macular degeneration, the most common cause of legal blindness in people over age 50.

OSHR plans expansion

Okanagan Similkameen Health Region decided, on February 22, to proceed with plans to build new residential care facilities in Penticton, Oliver and Osoyoos. OSHR will submit the plans to the Ministry of Health for immediate approval.

In Penticton, OSHR proposes to build a new 75 bed complex, of which eight beds would be for psychogeriatrics, six for respite and 61 for residential care.

In addition there would be a dropin community care clinic, a wellness centre, and a relocated enhanced Adult Day program. The project also calls for 30 to 40 low income assisted living in partnership with BC Housing.
