Town forms referendum committee Do you want an aquatic centre in Princeton? Do you want to pay for it?

That is the question we will have to answer on September 24 when the matter goes to referendum for both Town and Area H residents.

Town Council is forming a Princeton and District Aquatic Centre Referendum Committee to provide information to local voters so they can make an informed decision when they go to the ballot box. Mayor Randy McLean made it clear he wants voters to know both sides of the question, not only all the good benefits they will get from an aquatic centre, but what the costs will be.

The committee will consist of four Town staff, one Regional District staff, one swim club member, two medical professionals, one person from the school district, one RCMP member, three local business people, one member of Senior Citizens, four residents from both the town and Area H, and one youth.

Their task is to develop a comprehensive communication program, provide information through the media and other means, and develop specific action plans for a successful referendum with a positive vote.

Town prepares for new town hall Town Council is taking the first step toward building a new Town

Hall. Council is applying for funding to conduct a site investigation under the Contaminated Sites Regulation for the lot adjacent to the existing Town Hall. This lot was the site of a dry cleaning business which burnt down many years ago. The new Town Hall would include this lot.

At this time, the Town does not

# A decade of hotness!

#### by Arlene Arlow

The Similkameen Sizzle will be 10 years old in 2011, and this year's planning committee met on Wednesday April 6th in Keremeos to start the ball rolling for the September event.

Committee chair Vicki Morgan of Valley First Credit Union provided a summary of the ups and downs of the 2010 event. For 2010, inclement weather was the biggest factor that limited both the crowds and their ability to enjoy the day.

In the spirit of persistence, die-hard Sizzle fans stuck it out until the last hot pepper was gulped down during the Sear Factor pepper-eating contest at 5:30 PM last September. Organizer for that event was George Elliott.

This year's event includes returning favourites such as children's performer Matt Dufus, the Par-T-Perfect climbing wall and the Chili Cook-off tasting event.

The planning committee is hoping to offer some commemorative souvenirs at this year's 10th Anniversary Sizzle.

Committee members are all volunteers, and include Vicki Morgan of Valley First Credit Union, Tuesday MacDonald of Royal LePage Realty, Mayor Walter Despot, Arlene Arlow of Addventive Bookkeeping, John Bachewich of Breezy Valley RV Storage, Sunny Dhaliwal of CIBC, John Sladen of Diggidy Farm & Apiary, George Elliott of the Similkameen News Leader, Colleen Christensen, Manager of Similkameen Country Chamber and Carroll MacLean.

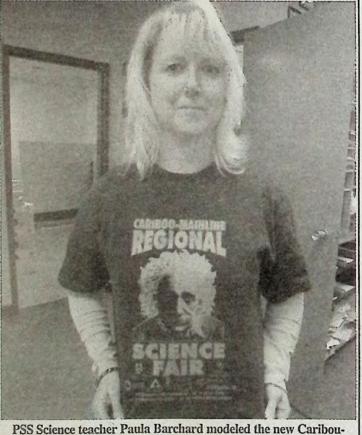

We will keep you posted as the planning unfurls. See you on September 17th!

### Mayor Despot reviews financial plan

year Financial Plan for Keremeos at their April 4th regular meeting. Keremeos Mayor Walter Despot issued the following statement at

Financial Plan Bylaw is being introduced and considered for three readings tonight. In addition to the public input opportunity provided on January 10, and the Question Period provided at each budget meeting, there will be an additional opportunity for any members of the public to provide input into the Five Year Financial Plan at a Special Meeting of Council scheduled prior to the Committee of the Whole Meeting next Monday night, April 11 at

The 2011 Tax Rates Bylaw will be considered for the first three readings on April 18, as all regional tax rates have not yet been received. Council may then, at the May 2nd Regular Meeting of Council adopt, or amend and adopt, the Financial

hours of deliberation by your Council and I would like to thank Council, staff and also the members of the public who were able to attend the series of budget meetings held in December, February and March. Many municipalities, including the Village of Keremeos, struggle to find an appropriate way to involve their citizens in their budget preparation discussions and the Village welcomes feedback from its citizens on this challenge.

Council's discussion on tax rates

always begins with a comparison of the current year's assessment base with the past years. In a best case scenario, there would be no large, fluctuation in the market based value of properties, and there would be enough new revenue generated from construction or subdivisions to fund any increase in expenditures required to provide the current year's municipal services.

Unfortunately, this has not been the case in 2011. While \$9,800 has been generated by new construction or subdivisions, an additional \$11,000 is required to fund projects and services that your Council has determined are necessary to either maintain or enhance municipal responsibilities and services in 2011 and to continually work towards the Village goal "to build on and improve the quality of life in Keremeos." Market based increases in assessment in 2011 will raise \$4,000 of this \$11,000 the remainder will be raised by in 1.1% increase in the 2011 tax rate. At the request of the Village, the responsibility for funding the Similkameen Valley Planning Society has been removed from the Regional District's budget in 2011 and transferred to the Village of Keremeos. An additional 1% tax rate increase is required to provide \$6,300 in funding to this Society. This brings the total municipal tax rate increase to 2.1%, which is

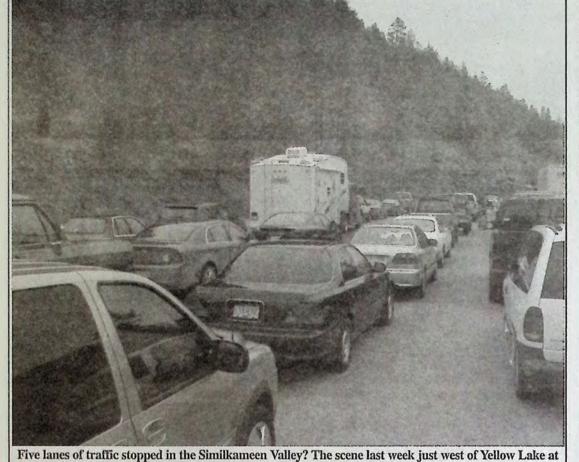

equivalent to a \$15 increase on residential properties assessed at the average value of \$230,000. Decreases in the Regional District's tax requisition to cover expenditures such as economic

development, fire and recreation services in Keremeos will equate to a \$13 reduction for a similarly assessed property.

Council discussed at length whether or not this increase should be shared equally by all property owners within the municipality. Since 2007, Council has not allocated any share of any tax increase to business property owners in the community - in fact the rate has been purposefully decreased by 9.5% over the last four years. The intention of the business tax rate reduction was to stimulate business activity, but it is acknowledged that small reductions in the tax rate may not be the best way to do this. Council recognizes that any reduction in business tax revenues results in an increased tax burden on residential properties owners and decided that, for 2011, the 2.1% increase in the 2011 tax rate would be applied equally to all property classes.

This does not mean that your Council is still not very keen to do what it can to promote business within our community. We will continue to monitor our bylaws to ensure they are not discouraging development and we will be reevaluating our Downtown Revitalization Tax Exemption bylaw to make it more useful and relevant to our business property owners. We welcome and urge local businesses and organizations to bring forth suggestions on how Keremeos can stimulate and improve the business and economic scene of the Village. We need your input!

#### The iPod Nano 6G - by Adam Gullason

Since it's release in September, Apple has made a huge amount of money off of their newest iPod Nano. This iPod has 1x1 inch multi-touch screen and an ARM based processor complete with a nice looking aluminum casing and stylish buttons.

The Apple team has managed to keep this iPod at the same price as the last one, too. At only \$159.00 to \$189.00 each, this would sound good to an iPod Newbie. But unfortunately, this iPod does not feature any of the old iPod features. The 5th generation which I used to own, had a backwards camera, step counter, games, video playback, voice memos and probably more. I used this all the time.

Unfortunately after having it stolen I bought the iPod Nano 6th generation where all the things I listed (minus the step counter) is missing. Steve Jobs, owner of Apple presented this and did not mention the lack of features on the

NEED A WEBSITE? AFFORDABLE LOCAL WEB DESIGN WWW.upnadam.me ADAM GULLASON info@upnadam.me OR VISIT www.upnrunnin.com

www.upna

new iPod. After watching the keynote I was pretty excited about this new 'revolutionary' product. But after using it, I found out that it is not all that it is said to be. If you are wanting an iPod that will count your steps while you listen to the hottest track, the iPod Nano 6th generation is for you, if you are like me and want a personal computer in your pocket, go with the iPod Touch or iPhone or iPad.

Any Questions? Suggestions? Go to www.upnadam.me and fill out the contact form.

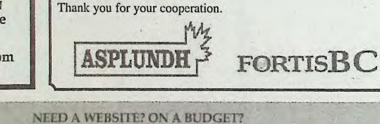

#### NOTICE OF PRUNING

FortisBC Inc. has contracted Asplundh Canada ULC to manage vegetation near power lines within its service area. This work is necessary to reduce safety hazards near electrical wires and to prevent power outages caused by trees or tree limbs making contact with the lines.

Clearing around the low voltage lines that deliver power to individual residences remains the responsibility of the property owner. For safety reasons, FortisBC encourages homeowners to enlist the help of a qualified professional when pruning near low voltage lines.

Over the next few weeks, Asplundh Canada ULC crews will be pruning, treating and removing hazard trees in the FortisBC service area of - Hedley #2 Feeder. The work location is described as: Old Hedley Road on the North - Highway 3 on the South - Hedley townsite on the East - and Wolfe Creek on the West. Every effort will be made to minimize disturbance to local property owners. If you have any questions about this project, please call Asplundh Canada ULC at 1-800-663-5860.

As a by-product of this work, free wood chips will be available in 8 cubic metre loads. If you are interested please call 1-800-663-5860.

#### The reason we need to supplement with digestive enzymes

(NC)-Digestive enzymes help replace enzymes lost in the cooking and processing of food and make up for decreased enzyme production

The human body makes and uses more than 3,000 kinds of enzymes to speed up enzymatic reactions and conserve energy. Without these enzymes, we could not live. Our bodies' reactions would be too slow

"While digestive enzymes, including the kinds found in Udo's Choice ultimate digestive enzyme blend, are only a few of the thousands of known enzymes, they facilitate a critical step in the digestive process," says Udo Erasmus, bestselling author and formulator of

Enzymes' role, from the moment food enters our mouth, is to start breaking them down to the smallest components that can be absorbed by the body. For minerals like calcium and magnesium, this will be at the molecular level. For sugars, this will be to fructose and glucose. Our body then absorbs and reassembles these components to build cells, tissues, organs, glands and entire body

The body has two sources of digestive enzymes. First, it is able to manufacture enzymes, although there are limits to its ability to maintain optimum levels. And, second, it can also obtain them from food, provided the food has not been heated above approximately 40 degrees centigrade, in other words, from raw food. In an ideal world, to ensure an adequate supply, the body obtains enzymes from both sources. Unfortunately, for most of us, raw and sprouted foods don't make up a sufficiently large percentage of the diet to adequately supplement the enzymes produced by the body. (It goes without saying that cooked, canned, microwaved and pasteurized foods contribute no enzymes.) Caffeine, alcohol, illness, pregnancy and stress all take their toll on

our enzyme reserves. Furthermore, our bodies also produce fewer enzymes as we age. But even when we consume more raw foods, the cooked foods we eat, lacking enzymes, still create a problem. This is because enzyme deficient foods put a burden on the digestive system - a burden we weren't designed to handle. Incomplete digestion can lead to poor nutrient absorption, fatigue, digestive upset, food allergies and other health conditions. The body tries to compensate by producing more internal digestive enzymes, but its ability to do so has limits. Partially digested food escapes from the gut and can cause an immune response. Ultimately the body may try to "steal" enzymes

from the immune system - compromising it even further.

Udo's Choice digestive enzyme blends contain the full spectrum of important enzymes necessary to help in the digestion and absorption of all major nutrients. Five specialized formulations of active enzymes, designed to be age - and condition - specific, facilitate healthy digestion, improve nutrient absorption and immune function, increase energy levels and decrease inflammation and food allergies. You can find out more about Udo's

Choice online at this web address: www.florahealth.com or toll-free at (888) 436-6697. You can also join Flora's sharing health community, a free forum about healthy living.

#### **Defend Yourself Against Radioactivity**

A lot of people are frightened by reports of radioactive fallout from Japan's nuclear disaster. Increased levels of radioactivity have been found in milk in a number of American states, and reports of radioactivity in the Pacific arouse fears of eating fish from Pacific waters affected by the Japan current, which flows past the coasts of Alaska, British Columbia and down to Mexico. There are things you can do to alleviate the effects of exposure to radiation, including exposure to X-rays, computers, television sets and microwave ovens.

Cabbage is a wonderful food for protection against radiation. Some people find cabbage hard to digest, but broccoli may be a good substitute, along with kale, Brussels sprouts and cauliflower. Calcium and magnesium are excellent for protection against radiation, along with Coenzyme Q10, kelp tablets and plenty of Vitamin C. Lecithin, Vitamin E and Vitamin B complex offer cellular protection. Some nutritionists recommend a high potency multivitamin daily.

Selenium is an important mineral in reducing the effects of radiation, but it does have a down side. Selenium scavenges free radicals and fights viruses, but it should not be taken by anyone suffering from anemia, as it binds with iron and removes it as waste.

Prolonged exposure to radiation destroys the body's immune system. Building immunity through a healthy diet is essential. There are immune system building complexes sold as supplements in most health food stores, or consult an oncologist or naturopath for advice on immune building supplements.

A flavouring for soups, called miso, is believed by the Japanese natural healing specialists to be instrumental in saving the lives of many of those who suffered radiation sickness after the atomic bomb attacks on Hiroshima and Nagasaki in 1945. Miso must be handled with great respect, as it is subject to being killed by too much heat. Always add it after the soup is taken off the burner and allowed to cool a bit. Miso is manufactured in Canada, so do not think it must be imported from Japan. For those intolerant of soybean products, ask for barley miso.

Canada produces another product called Essiac tea, available in health food stores. This herbal tea has proven effective in combating the effects of radiation.

### Posse sign coach to three-year deal

fundraising.'

Plans are already in place for a Fall Showcase Tournament, which may become an annual event involving minor hockey teams from across Canada.

Hladun told Posse Directors at the April 5th meeting there is already interest in such an event and that he felt it would be beneficial to the Posse, minor hockey and the league.

There are also plans in place for camps and events leading up to the start of the 2011/12 KIJHL season.

Hladun will be responsible for team building and developing programs for team players which will require regular attendance at practices, conditioning exercises, community events as well as providing community service.

The contract runs from August 1. 2011 to July 31, 2014 and had been on the table for the Posse Executive for most of the current hockey season. A committee was struck earlier this year to meet with Hladun to discuss a proposed contract.

Once details were hammered out to the satisfaction of both sides, the agreement was signed.

In other Posse news, there has been a lot of interest in chartering the Posse bus from various user groups, private individuals and corporations.

Posse President John Babiak estimates bus charters could bring the team around \$20,000.00 in revenue in the off season, which will likely become an annual revenue source when the team is not active.

Posse Head Coach Dale 'Duner' Hladun reading to local elementary school students. \*

**Rockets season** comes to an end

The Thompson Okanagan Female Midget AAA Rockets travelled to Edmonton to compete in the Pacific Regional Playoffs the weekend of April 1 to 3.

The team went into the competition knowing that no B.C. team had won this series or scored a goal on their opponents. The team came out strong the first game and scored the first goal of the game at the ten minute mark of the first period. This goal was scored by Kelsey Freudenberger with assist from Chloe Kennedy and Bre Frasca.

Edmonton Thunder tied the game early in the second period and scored the go ahead goal late in the second and the third period began with Edmonton being up 2-1. Edmonton scored again early in the third period but the Rockets answered back 30 seconds later (Goal Bre Frasca, assist Kelsey Freudenberger, Cora Sutton) and the score was 3-2 Edmonton.

The Rockets came on strong in the back half of the third period but a late goal from a point shot of an Edmonton player thwarted the Rockets come back efforts and despite pulling the goalie, the game ended with Edmonton Thunder winning 4-2.

The Rockets started Game 2 knowing this was a must win situation.

The Edmonton Thunder came out ready to close the series. Despite the Rockets evenly playing with the Thunder (shots on goal at the end of the 1st period were 9 for Edmonton and 6 for the Rockets), Edmonton won the period and were up 3-0.

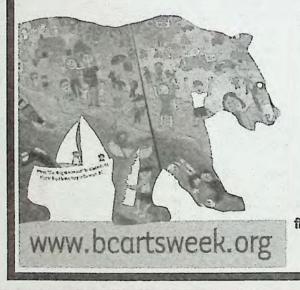

The Rockets didn't allow the score to deflate them and had a strong 2nd period but Edmonton Goalie Morgan Glover held off any shots on goal. The Rockets got one past Glover in the third period (scored by Janessa Jenkins, assist Bre Frasca) but overall came up short and Edmonton took the win with a final score of 7-1.

Rockets coach Mark Elder knew they were coming up against a very strong team however was proud of his team for what was accomplished throughout the season and in this series.

"We have come very far this season in advancing B.C.'s female game and have accomplished in this series and at the Mac's Tournament milestones that no B.C. female team had accomplished to date." It is a building block for next season. - submitted \* Princeton's Colby Williams finished the 2010/11 Regular Season with the Rockets. She played 26 games collecting 10 goals and 11 assists. Her father, Kevin, is an Assistant Coach with the team.

### Keremeos five-year financial plan

**Strategic Priorities** 

During its budget discussions, Council reviewed the many requests for use of limited staff and financial resources within the context of the Strategic Priorities that have been set for 2011. A copy of these priorities is included with the financial plan information that has been made available to the public. Council has made every effort to provide funding within the 2011 - 2015 Financial Plan to ensure these priorities can be accomplished as planned.

With the municipal election this November, your new Council is likely to embark upon a fairly comprehensive review of its Strategic Priorities for its upcoming three year term. The public is encouraged to provide input into this process.

As Mayor, I ask all citizens to give serious thought regarding who you would like to see on the ballot for Council and Mayor this November. Now is the time to seek out potential candidates and plan for the upcoming civic election.

Financial Plan Highlights Capital Projects

Schedule C to the Financial Plan Bylaw lists \$642,000 of capital projects which the Village is planning to complete in 2011. A further \$680,000 is planned for 2012 through 2015.

Providing funding for \$1.3 million dollars in capital projects over the next five years is not without its challenges. Council has in place a program to transfer funds to reserves each year for future use for capital projects. Grants from senior levels of governments, such as the Provincial Strategic Community Investment Grant and the Federal Gas Tax Grant also assist small communities such as Keremeos in meeting their infrastructure replacement needs. Borrowing will also have to be considered, when required and affordable, to fund replacement of the Village's aging infrastructure.

Council has reviewed a multi-year road and sidewalk rehabilitation program and equipment replacement program and approved projects for consideration in 2011, 2012, 2013, 2014 and 2015.

The Council of the day will review these priorities when it deliberates the Financial Plan for each year, however five year planning enables a Council to ensure future fiscal and infrastructure needs are being taken into consideration when the current year's spending program is approved.

Considerable funding is being budgeted again in 2011 to provide required repairs and upgrades to the Village's sewer lift station and wastewater treatment plant. The Village's wastewater treatment plant is at an age where major refits and repairs must be considered and carried out and the multi-year Liquid Waste Management Plan will provide Council the direction it needs to ensure this is done. The Victory Hall and Memorial Park will also continue to receive the funding required to finish the upgrades started in 2009 to ensure both the building and the park continue to be a community gathering spot for all to enjoy.

The roadwork required on 2nd Avenue between Sykes Crescent and the west end of Pine Park is scheduled for completion in 2011 along with work on the Alley between 10th & 11th Avenue and 4th & 5th Street. The Village is also proposing to replace its deteriorated 1980 dump truck with a new one in 2011, purchased through a 15 year capital lease with the Municipal Finance Authority. Elector feedback on this truck purchase will be solicited later this year.

For information on the other capital projects planned for 2011-2015, please refer to the Schedule C to the Bylaw.

#### In our Operating Budget

As identified in the Financial Plan, expenditures totaling approximately \$1.5 million are required to fund the various services the municipality provides in the community, including: general government services such as legislative, financial and development; protective services such as building inspection, bylaw enforcement and fire safety inspections in public buildings; public works; cemetery, solid waste administration, parks, and sewer collection and treatment.

You may note in the Financial Plan that general government services decrease in 2012 through 2015 from the 2011 level. This is mainly due to one-time expenditures in 2011 for completion of the Official Community Plan Review - \$22,000; transfer of provincial government grant funding to the Grist Mill -\$87,000; and funding for the November election-\$12,000.

The Village will also continue to participate in the administration of water distribution within the Village through an ongoing partnership with the Keremeos Irrigation District. Major upgrades to meet currently accepted water quality and delivery standards will need to be considered on an ongoing basis.

In 2011, as in past years, we continue to appreciate and support the programs provided to our citizens by the Regional District. Recreation, pool, fire and landfill services provided by the Regional District make an important contribution to the quality of life in Keremeos.

Other initiatives set out in Council's Strategic Priorities - developing a long term asset management plan, addressing tourism promotion, economic development, reduction of greenhouse gas emissions, and partnering with community groups and Areas B & G on community events, the community resource centre and the new campground committee are also included within the Village's operating budget. No user fee increases are proposed for 2011.

In Conclusion: I believe this Budget represents a responsible allocation of Village staff and financial resources in order to assist Council and the Community in moving forward in 2011 and beyond, while still maintaining an appropriate amount of funds to ensure the ongoing financial stability of the Village.

I therefore recommend that the 2011 - 2015 Financial Plan Bylaw No. 788 be given three readings.

to provide veterinary care for horse clients. Travel fees will be shared among the various farms receiving services for that day. New clients are welcome! To make an appointment please call the office toll free at 1-866-766-4310. Town of Town of Princeton PRINCET Official Community Plan Bylaw No. 846, 2011 ursuant to the provisions of Section 892 of the Local Government Act, notice is nereby given that Town Council will consider amending the Town of Princeton Official Community Plan Bylaw No. 808, 2008. The proposed Amendments are as follows: Text amendment to the Town of Princeton Official Community Plan Bylaw No. 808, 2008 with the introduction of a new Official Community Plan designation "Business Transition (BT)"; and ot B District Lot 705 Yale Division Yale District Plan 39924 Except Such Undersurface Rights as are Registered in Absolute Fees Book Vol 18 Fol 123 No. 9729D (DD155391F), PID 011-687-142, be designtated ast "Business Transition (BT)". The purpose of the Official Community Plan Amendment is to introduce a designation area "Business Transitional (BT)" and to facilitate the redevelopment of the subject property from heavy industrial to a mixed used commercial/residential development. The Council of the Town of Princeton will meet and hold a Public Hearing April 18, 2011 at 6:00 pm in the multi-purpose room of the Okanagan Regional Library (107 Vermillion Avenue, Princeton BC) to consider the proposed zoning bylaw amendment. All persons who believe their interest in property is affected by the proposed bylaws will be afforded an opportunity to be heard in person and/or by written submission. Written submissions will be accepted up to the conclusion of the Public Hearing. If you are submitting a written submission prior to the Public Hearing, please submit it

to the CAO office at Town Hall (PO Box 670, 169 Bridge Street, Princeton BC VOX 1W0). Council will receive no representations on this bylaw after the close of the Public Hearing.

A copy of the subject bylaw Town of Princeton Official Community Plan Amendment Bylaw No. 846, 2011 (Business Transition) is available for examination during normal business hours 8:30 a.m. to 4:30 p.m., Monday to Friday except statutory holidays in the Town Office, 169 Bridge Street, Princeton, B.C. commencing on March 8, 2011 and up to and including April 18, 2011.

CREATED FOR THE NEWS LEADER BY CARTER BOSWELL

**HOW TO PLAY:** Sudoku is a game of logic. There is no math involved. The object of the game is to fill the grid so that the numbers 1 through 9 appear only once in each row, column and 3 x 3 box. The numbers can appear in any order and Carter has left you some clues below.

### VIR shows free film

Prevention of Violence Against Women Week runs April 19th to 23rd and the Princeton Violence in Relationships Committee (VIR) invites everyone to a free screening of the film: "Precious" to honour those victims of crime and promote community awareness.

This free screening is scheduled to take place on Wednesday April 20th beginning at 6:30 PM at the Riverside Centre Meeting Room. There will be opportunity for discussion, access to information, and support, if required.

"Precious" is rated R for child abuse including sexual assault, and pervasive language.

"Precious" Jones Clareece (Gabourey "Gabbie" Sidibe) stars as the Harlem teen who is pregnant with her second child and struggling to overcome hardships in her life. She had been raped by her father, abused by her mother (Mo'nique), and generally neglected.

She is angry, overweight, illiterate, and has little hope for a promising future until she is accepted into an alternative school and nurtured by the positive relationships she forms.

This event is open to everyone.

Culture Arts and week continues

Arts and Culture Week runs from April 10th to 16th this year. Since 2006 the Princeton Community Arts Council has celebrated Arts and Culture week at Riverside Centre.

The celebration began with an open house that year and in 2007 the first production of the Princeton Performing Arts Group with "The Mousetrap".

The following week in April 2007 Ballet Kelowna performed on the gym floor to a packed house.

Who could have imagined that in 2011 Riverside Centre would be the venue for a Pow Wow?

The Princeton Community Arts Council would again like you to join in celebrating "Arts and Culture Week" April 10th to 16th at Princeton's cultural venue Riverside Centre.

Tickets for the Nankama African Drumming Concert Saturday 16th April are available at the Sunflower Gallery Vermilion Avenue where the work of local artists is for sale.

#### Has Spring Actually Sprung?

The first day of spring was March 20th.

Did it feel like spring to you?

The maximum temperature for that day recorded at the Airport Weather station was 7.7C. The low for the day was -4.5C. The only good thing about that day was that there was no rain or snow recorded. The upside for me was that it was a day off and we went on a drive that took us to Keremeos and Penticton for the day.

The warmest day since then was March 30th (14C) and the coldest day was April 8 (-6.2C).

What's it matter?

Well, as Canadians, we spend a lot of time talking about the weather. It's almost as if our daily routine is thrown off kilter if we don't somehow acknowledge the weather at least regularly each and every day. I look at a thermometer hanging outside our door each morning before leaving the house. The result rarely forces me to change my clothing, but it gives me something to ponder on my walk to work.

Well, it didn't really feel like minus five this morning, or whatever. We have a barometer I rarely look at but when we had our mini dish hooked up I'd spend hours watching the weather channel. Now I check it frequently on my handheld device. I 'tweet' about it online.

It's standard backup when conversation with a client or acquaintance starts to sag.

So, what about the weather we've been having, eh? -

It just never ends.

And one of my favourites is when we all start to complain about it being too cold and that we can't wait for it to warm up, and once it gets warmer – and much hotter – we start to complain about the heat and can't wait for it to cool off.

Weather is such a big part of our lives.

A quick search online with the phrase "Why do we talk about the weather all the time?" turned up 7,820,000 results – websites and webpages covering everything from how to talk about the weather to discussions on whether (no pun intended) or not we should talk about it.

The bottom line is that we talk about the weather because it is a neutral subject, or in other words, a lot safer to discuss with a stranger than politics or religion.

I think Mark Twain summed it up best when he said, "Everybody talks about the weather, but nobody does anything about it."

And if my guess is right about today, I should probably turn on the air conditioning for a while. Or at least until the next customer comes in and mentions how cool it is in our office.

#### Dear Editor;

Alex Atamanenko, our MP, was in Keremeos on Tuesday to attend a talk in Cawston hosted by the organic growers.

The talk was about GMOs, genetically modified (read manipulated) organisms and the great efforts of some people to keep it out of our food supply.

The latest onslaught on our little valley is the potential introduction of a non-browning apple (like we need that). GMOs are much, much more dangerous than pesticides, which will eventually disappear from our environment. But GMOs multiply, cross-pollinate and multiply again and again until there will be no such thing as an organic anything.

This is a major threat and we are very lucky to have the Agriculture Critic as our federal representative. Alex's private member's Bill C-474, a seed regulation act that

# Hodge

To The Editor;

Politics can be confusing, at times the differences between the definitions of parties can become blurred. For example our BC Liberals fit better on the Conservative right wing end of the scale.

At that end, everything is full speed ahead, and don't give two hoots for those unfortunate people on the bottom rungs of society, just as long as we preserve wealth for the wealthy.

But then if you look at a definition of conserve it is to keep from injury, decay, loss, destruction, or from premature use or consumption, hmmmm.

It would seem the political use of conservative is not really correct, whoa! Not so fast. The definition of conservative is naturally opposed to change, especially hasty change in political, religious or civil institutions and opposed to radical reform. Confused yet?

This means that what they are really trying to conserve or preserve is as stated earlier, wealth for the wealthy.

This wealth is supposed to be the

requires an analysis of potential harm to export markets (considering what happened to the flax growers), was voted down. But, as Alex explained, a few of the Liberal MPs are beginning to see the urgent need for this regulation. Alex has been a very involved representative, not only at the legislative level but here at home. During the sudden rush for passports a representative from his office, who came here every month, helped numerous people fill out their forms correctly and Alex finally secured an office in Vernon so people didn't have to go all the way to Vancouver.

He took an active part in trying to convince the federal government to get involved with the Shanker's Bend dam project, which would flood our lower valley. He stepped in when the local organic packinghouse was unable to obtain storage space for their apples in Canada and had to go across the line. Alex helped with the paperwork that enabled them to move their product across the border before their apples rotted in the bins. Alex gets involved in local issues such as the coal bed methane proposal in Princeton and the post office closures, as well as fighting for our issues in Ottawa. Alex knows the area and knows the issues. He is an honest and ethical man. What more could we ask for?

Sincerely, Donna Stocker, Cawston

# **Explains Politics**

tide that raises all boats, but there must be a dam somewhere because it sure is a damn uneven tide.

Canada now has the lowest Corporate Tax rate of the former G7 Nations, which includes the U.S., this creates a favourable climate for investment in this corporatist outlook. Some investment is good, profit is not automatically bad, but almost never throughout history have large companies and corporations paid decent wages voluntarily.

Henry Ford was the only exception I know of who almost 100 years ago paid his factory workers double the wage of that time. Nowadays the C.E.O.'s just pad up their measly 25 million plus or minus annual salary, meanwhile you make up the tax shortage. - Jim Hodge, Princeton

#### It's Time To Wake Up

Dawn Johnson editor@thenewsleader.ca

So, we're having another federal election. I have been telephone interviewed twice on who I'm going to vote for and how I feel about issues identified by pollsters.

Frankly, I am not particularly concerned about those issues. I have bigger issues on my list of priorities. After weeks of radioactive fallout in our air and our ocean polluted with radioactive particles, my first concern is getting rid of nuclear power plants anywhere on earth.

On March 27, 200,000 Germans staged a protest march against nuclear power. The march was organized by the Green Party and supported by the governing party, the Social Democratic Party. The German government has already accelerated its plan to phase out nuclear power plants in German and go truly "green". The protest march was about the bigger issue of abolition of any nuclear power plants in the world.

The German minister of environment stated, "The International Atomic Energy Agency promotes the construction of nuclear power plants in all areas of the world, even in war and crisis regions. That needs to stop."

In Turkey, people marched in protest of their government's plans to build nuclear power plants. Turkey is in an earthquake zone.

In India, people marched to their Parliament to protest government plans to build nuclear power plants.

In Japan, people marched in protest to Tokyo Electric Power Company (TEPCO) head office to demand an end to Japan's dependence on nuclear power. On March 29, the Japanese government announced it is re-thinking Japan's dependence on nuclear power. In the meantime, executives of TEPCO receive up to 40,000 angry messages a day, many of them death threats. A new social network posting is titled "How to Assassinate a TEPCO executive", and the home addresses of these executives have been posted.

In the United States, President Obama announced \$38 billion for more nuclear power plants. At the same time, the federal nuclear power regulatory body began discussing shutting down the reactors at Indian Point, New York State.

These reactors are 40 years old, and Entergy Corp., which owns and operates the nuclear power plant, has requested 100 exemptions from federal fire safety regulations, saying it has alternative fire safety measures in place. Until the disaster in Japan, the company was granted the exemptions. Indian Point is on a fault line.

In Canada, hearings took place concerning the expansion of the Darlington nuclear power facility 60 km. from Toronto. This expansion, costing billions, is supposed to take the place of the Pickering, Ontario, nuclear power facility which is scheduled for closure in 2020.

In 2009, the government of Canada agreed to assume partial responsibility should a nuclear "accident" occur. In other words, if our nuclear facilities malfunction, we taxpayers all across Canada are on the hook for the cost of clean-up and any class action lawsuits that may result.

Why are taxpayers subsidizing nuclear power plants?

I'll tell you why. Nuclear power plants have such a bad safety record that Wall Street will not invest in them and no insurance company will underwrite the possibility of a nuclear disaster such as we are seeing in Japan. So you and I have to pay for something we do not want because our nutcase politicians think we should have it. To me, this is an election issue.

To add to Canada's potential nuclear power problems, Darlington and Pickering are on part of the New Madrid fault zone, a region encompassing all of the Mississipi watershed which links to the St. Lawrence fault zone.

The New Madrid fault zone has

shown signs early this year of becoming more active, with numerous low intensity earthquakes measuring around 4 on the Richter scale.

British Columbians tend to feel secure about our situation, as we do not allow nuclear power plants. We think we are safe from any nuclear disasters. Wake up! We are in a nuclear disaster zone if any of the Washington, Oregon or Idaho nuclear power plants run into trouble.

Idaho has one plant in operation. Two sites are closed, one due to partial meltdown, and the other after going "supercritical" in 1961.

These are supposed to be safe, clean energy, remember? The Idaho plants are located several miles east of Spokane.

Oregon closed one nuclear power plant in 1993 after a series of problems. One is in operation along the Columbia River, a major fault zone.

Washington has three nuclear power plants shut down (one in Yakima), two in operation, and one planned.

That's our nuclear disaster zone because we often have winds from the southwest.

If you want to confirm this information, go to internet "list of nuclear power plants in America". You can get all kinds of details about these plants. You can go to the Greenpeace Canada websites for more about Canada's nuclear power plants.

I want to know if any of our current candidates is willing to take a stand against nuclear power generation in Canada. I would like News Leader readers to take a stand, too.

If you think you really don't know enough, I have a question for you: would you like anybody you love to live near a nuclear power plant? If you say no, then take a stand.

How do you take a stand? Ask every organization you belong to that has any clout, like the Senior Citizens, Legion, political party, Rotary, Lions, Indian Band, to write a letter demanding an end to nuclear power plants in Canada. Write a petition (nukefree.org has a good example) and get everybody to sign it and send it to your Member of Parliament. Put a sign on your front lawn or in your front window. Action speaks loudest.

AND NOW ... A LITTLE GOOD NEWS!

"Love does no harm to its neighbor. Therefore love is the fulfillment of the law." Romans 13:10 Tuesday, April 12, 2011

On April 1, three military personnel traveling across Canada in a CH146 Griffin helicopter spent a weekend in Princeton. They had been forced to land due to bad weather and fog. The Town CAO Patrick Robins played host to the crew, who enjoyed the use of a vintage K car donated for just such an emergency. The crew stayed in a local motel, ate at local restaurants, visited a pub, and said they were quite impressed with local hospitality. Photo: Patrick Robins

#### **Rick Hanson needs local medal** bearer

... continued from Front Page at RickHansenRelay.com, allowing Canadians to enter to win a spot for themselves or nominate a worthy individual to participate in the Relay as a Medal-Bearer.

"Today is an exciting day in our 25th Anniversary celebration and for Canadians across the country, as we connect the nation and provide the opportunity for people who are making a difference in the lives of others to be recognized for their accomplishments and to share their stories," said Rick Hansen, President and CEO of the Rick Hansen Foundation.

"This is the start of a movement for 7,000 Canadians to help inspire the nation and live by the credo that anything is possible."

As part of the Relay, residents of Princeton and Area H can enter the online contest to participate in the Relay. To tell the story of Canada's difference makers, the online contest is open to: individuals who are creating a more accessible and inclusive world, youth-leaders who are encouraging their generation to embrace positive change, persons who are protecting the environment or any Canadian who is seeking ways to improve the lives of others. While Hansen will not be

Sego Resources Inc.'s sole project is the Miner Mountain Project, a Copper Gold Porphyry project near Princeton, 15 kilometres north of wheeling across the entire country as he did 25 years ago, he will be present at a number of stops throughout the country during the nine month 25th Anniversary Relay.

"It is exciting, will be exciting to welcome to Princeton the Rick Hansen 25th Anniversary Tour in May of 2012," said Nadine McEwen, Princeton Community Recreation and Cultural Coordinator.

"Planning has begun for an End of Day Celebration in Veterans Square with the Princeton Rick Hansen 25th Anniversary Committee."

As the Relay will connect the country from coast to coast, the symbol that links each participant to the next will be the Rick Hansen Medal, designed and produced by the Royal Canadian Mint. From the same Ottawa facility responsible for medals of the Canadian Forces, the RCMP and the Vancouver 2010 Winter Games, the Mint has designed and handcrafted sterling silver Rick Hansen Relay Medals.

Every Medal-Bearer will receive their own medal to permanently remember the way in which they personally added to the momentum of the 25th Anniversary Man in Motion World Tour.

Copper Mountain Mining Corporation's former copper producer, which closed in 1996.

Copper Mountain Mining Corporation (CMMC) is planning to restart full production in June 2011.

The Miner Mountain Project is situated within the Traditional Territory of the Upper Similkameen Indian Band, with whom Sego has a Comprehensive Memorandum of 

25th Anniversary Relay Fast Facts:

· Begins on August 24, 2011 in Cape Spear, Newfoundland and Labrador and concludes in Vancouver, British Columbia on May 22, 2012.

· Fully recreates the original Man In Motion cross-Canada tour, spanning 12,000 kilometres from coastto-coast.

· Will travel through over 600 communities, visit every capital city and all provinces and territories and reach more than 70% of the Canadian population.

· Will engage approximately 7,000 participants - difference makers in their own right - who will collectively cover an average of 40 to 80 kilometres a day, making their way across the country passing a singular Rick Hansen Medal to the next participant.

· All Canadians (13 years and up) will be able to apply to become a participant through the online contest at RickHansenRelay.com.

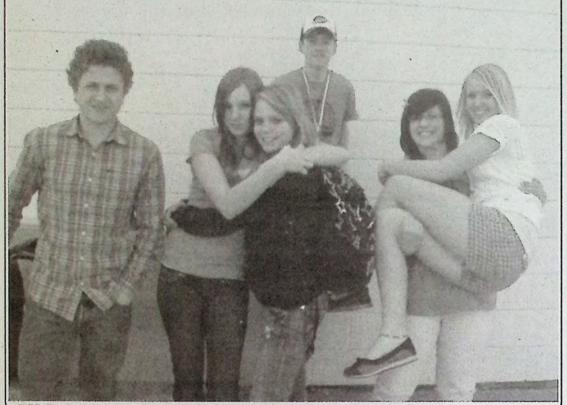

### **Family Fair** celebrates 60

... continued from Front Page restaurants. Tickets are available from any Grad or at the Fair. The draw will take place at 3:00 PM on April 21st.

The Family Fair organizers are still looking for household articles you may wish to donate and appreciate all "garage sale" items (no used clothing please), toys and puzzles, plants, books, jewellery and handicrafts - preferably in good clean condition.

As well they need donations of breads, buns and baking. Articles may be dropped off at Princeton Secondary School or call Pam for

### **Students celebrate science**

A total of four Princeton Secondary School Grade 8 students participated in the Caribou-Mainline Regional Science Fair last week in Kamloops. The foursome left Princeton at 3:45 PM Wednesday, April 6th and arrived back at PSS at 3:00 PM on Friday, April 8th.

A total of four School Districts participated in the regional event including School District 58 (Nicola-Similkameen), School District 27

### **Cawston hosts concert**

On April 28th Cawston will host the popular Thursday Night Jazz Band from Penticton.

For a number of years the band has formed up to play special benefits, this February in a fundraiser for the McNichol Park School band program. As usual, the concert sold out.

Area audiences always relish the unique sound of the big band jazz orchestra.

The band is made up of four trumpets, four trombones, five saxophones and a rhythm section which includes bass, guitar, piano and drums.

The repertoire varies from swing tunes to rock to funk.

The band can be seen and heard online through YouTube.

Concert begins at 7:30 PM April 28th at the Cawston Community Hall. Doors and refreshments open at 6:30 PM. Snacks available by donation. Bring a chair pillow for added comfort.

There is an admission fee with advance tickets available at the Cawston Marketplace and Keremeos Pharmasave.

The concert is a Music Under The K event. - submitted (Cariboo-Chilcotin), School District 73 (Kamloops/Thompson) and School District 74 (Gold Trail).

All four of Princeton's Grade 8's returned home with medals and certificates of achievement.

Brynn Johnson won a Gold Medal for her project titled 'Mind Games' and Kolton Smith also earned a Gold Medal for his 'Get Cracking' project. Owen Bartlett's 'Polar Magic' was awarded a Bronze Medal and Brooke Bottcher returned home with a Merit Award for her project titled 'Sweet Tooth.'
