Canada We acknowledge the financial support of the Government of Canada through the Canada Periodical Fund of the Department of Canadian Heritage.

Evelyn McCallum was the most recent recipient of a Town of Princeton Volunteer Service Award. The presentation was made by Mayor Frank Armitage, right, during the November 3rd regular monthly meeting of Town Council. \*

# recognizes McCallum

Local volunteer Evelyn McCallum was presented with a Volunteer Service Award at the November 3rd regular meeting of Princeton Town Council.

Mayor Frank Armitage read off her impressive list of contributions during the short ceremony before the business part of the meeting took

"Evelyn joined the museum in its new building for the Canadian Centennial in 1967 and has been involved in many capacities, serving as President for twenty years and also holding the position of Secretary for many years."

McCallum is currently a board director and volunteers for hosting duties and is the longest standing board member.

"Evelyn has made enormous contributions to this society and continues to be their main point of contact for the history of artifacts and donors."

McCallum was also active in the Rebekahs, has been a member of the Royal Purple for fifty years and is their current Honoured Lady and Secretary. She has been Assistant Returning Officer for Town of Princeton elections and chair of the property assessment board.

The "Estimated Value of Property Tax Exemption" is the amount of taxes that would be imposed on each property if they were not exempt. The value of the exemption has been calculated using 2014 Property Tax rates.

### Flip Of The Coyne

#### by Spencer Coyne

The funny thing about internet discussions is that sometimes they actually make you stop and think about things. A little while ago there was a post on an online forum debating the merits of being local. For me and my family, being local is more than just a saying. It is who we are. Our family goes back here for generations upon generations. In fact, our kids are the fifth generation on our family farm. We are directly related to John Fall Allison, the first settler to the area, and even more so, our family was here before his arrival. To some of us, being local isn't a bad thing and it isn't just something to say to try and get people to think about shopping in town (although it is a good way to think about using your purchasing power).

To me being local is important. It means you have roots and it means you have history. When it comes to economics, it is just as important because local means jobs,

taxes and a future. The News Leader has been pounding the local drum consistently now for almost a year. There is a reason we believe in local at the News Leader. We are local. We are locally owned, operated and staffed. Most businesses in Princeton are locally owned and operated. Even the big brand name stores are locally owned with Cooper's being one of the exceptions. Although Cooper's may not be locally owned, they sure are locally operated and staffed and are a major supporter of our community. When a business is locally operated and part of the community, it shows. They not only support the local organizations looking for donations, they support the local economy by providing jobs and taxes. When money is kept within the community it circulates, creating more jobs. It goes without saying that industry is the largest economic engine in Princeton, be it the mine or the mill with all the logging contractors. The economy of the town has always fallen back on supplying services to these industries and their employees. It is this circle that keeps Princeton

We hear a lot that Princeton needs to grow. This is true. Princeton does need to grow, but I don't think we all agree on how Princeton needs to grow. We can build more houses and zone for more subdivisions, and at the end of the day you may have increased your residential base, but where are the jobs? The Town is now considering annexing the mine to increase its tax base.

Will it happen? Only time will tell. It will be up to the provincial government, but when you take from one hand and put it in the other, is that really growth? Sure the Town may increase its tax base when it annexes part of the Regional District, but that means that tax base has just shifted. It didn't grow. We still haven't seen a

real growth strategy from the Town of Princeton. We still haven't seen a flood of investment into the Town's industrial park and Vermilion Avenue is starting to look like the old west. Is there a plan to bring businesses back to that part of town?

It is easy to say we need to grow. What we really need to do is grow economically so we can attract new people to town. You can try to grow your population, but without some reason for new people to move here, what is the point? There are only so many jobs at the mine, the mill or in the bush, so where are the new people going to work? I hear a lot of rumblings about the Town wanting to build a pool again. That is great, but let's be realistic for a moment. A pool on its own isn't going to bring the population and economic boom we are all hoping for. A pool is just part of a bigger picture. Without an increased tax base, all those increased services will not have the appropriate funding levels needed to keep the doors open.

I think it is important that when we think local that we remember that when we shop local or support local we are supporting local jobs. Those jobs support the local tax base and the local economy which allows us to keep those services we love. It is also important to remember that although we keep talking about growing or taking the mine into the town, we are not just taking from one hand to feed the other and let's think about long term strategic planning so we have industrial and business growth so that we can support not only the services we want but the jobs we need to grow.

### My Turn...

#### **Keep It Local**

Spencer said it somewhere on Page 3.

We've been beating the local drum here for as far back as I remember but aside from the odd Editorial I never really dug very deeply into it. Then the Town of Princeton started hosting meetings of downtown merchants and I started writing the Saving Downtown Princeton series.

Close to a year has passed and aside from some cosmetics, the downtown core still has as many empty storefronts as before. There's still people grumbling online about the cost of shopping in Princeton and the gas prices haven't helped our community much at all.

With Christmas approaching, the Chamber of Commerce has the huge task of trying to convince you that it is wise to support your local economy.

I know, it's not easy to do for many local residents but if we want to keep local stores and businesses from going out of business we need to support them. Even if it's once in a while.

I get customers in my office telling me what they think of many local businesses. It seems to be a common thread in regular conversation. A new business opens and the talk shifts to "I hope they aren't as expensive as (their competitor)," or there's a change in ownership or management and even one small price adjustment takes place and the comments turn into "I knew it! They've raised their prices and it's all because of (new owner/manager's name)!"

Sometimes you can't win in business in a small town but if more of us would take the time to actually make the comparison, you do save money.

This will not be the best example, but Halloween candy prices were probably the lowest I have ever since in Princeton last week. In some cases, they were even better than what I saw in Penticton days before.

I like to use logic and so this makes me think that if it happened with Halloween candy there has to be other savings available in and around our community.

Another thing I like is the various homemade products starting to become more and more visible in and around our community. I've always been impressed with the variety of skills found in our town and when it comes to homemade products there is no shortage of them.

If you think Princeton's prices are out of line, maybe you could do something different this holiday season and still spend some of your money on the local economy. This year why not support the local crafters and hobby businesses for a change? I can guarantee you that even if you spend \$30 on one of them you will make their day and your \$30 will likely go back into the local economy.

Logically speaking, that's a win/win situation.

Susan MacGregor of Summerland is one of Susan Allison's granddaughters. She assisted with the unveiling of the new Susan Allison mural in downtown Princeton November 7th. It hangs outside the Princeton Legion Hall. \*

### ... Your Turn

#### Letters and E-Mails Received This Past Week

To The Editor:

I want to thank you for the fair and balanced report of the all candidates meeting, I was there and its interesting to see the difference between real news reporting and sensational bias to fill space. This election in Area H is an important election for the residents of Area H, it seems to me that two of the candidates have an agenda they wish to push forward, while one candidate claims to have no agenda, he only wishes to serve those who would elect him.

It seems to me that we have a clear choice to make here, Area H is made up of several communities, each with their own needs, to blanket those communities under one viewpoint or agenda, is in my opinion foolhardy. I will vote for the politician who's desire is to listen and represent each community based on its own needs, after all, aren't elected officials supposed to represent their constituents wishes and needs rather than their own?

Whoever you choose, make damn sure you get out on the 15th and make your mark. Make it the most important thing you do that day.

- LeRoy Fague, Princeton

### Current Comment

#### A Nation Under Attack?

Dawn Johnson editor@thenewsleader.ca

A lone gunman kills a soldier in Ottawa then, brandishing a gun, charges into the House of Commons and is shot dead. Suddenly, Ottawa is locked down for hours, and the media goes nuts. Unfortunately, so do an awful lot of Canadians.

This is what a nation under attack looks like: the Nazi war machine invading Poland, Japanese aircraft bombing Pearl Harbour, the Soviet army invading Afghanistan, the Japanese invading China, the Americans invading Granada, the Argentinians bombing the Falklands. A nation under attack does not look like a lone gunman killing one soldier.

What we saw on television was the result, I believe, of the ideas of a young man who was looking for his moment of fame and willing to die for it. Maybe in his mind it was some kind of heroic deed, but a summation of his life, if the major media can be believed at all, is the story of a man who was looking for some kind of meaning in his life. He had done drugs, he had worked at odd jobs, and he had tried to find a faith and been rejected by the mosque. Maybe he dreamed of being some kind of superhero for a great cause. We really don't know because he is dead and we cannot have him interviewed and analyzed.

What we can analyze is the hysterical response of the media and

the equally hysterical response of so many Canadians. We need to ask ourselves if we are so brainwashed by the media that we are like the laboratory dog trained to salivate at the sound of a bell.

I feel sorry for the soldier who was killed. I feel sorry for the people who loved him, and I feel sorry for the gunman's family, too. I feel sorry for the families of all the missing women from Winnipeg, and I feel sorry for anybody who has suffered losses. There is plenty to feel sorrowful about if we look at all of the nasty things going on in our world. However, I look at these things without turning them into an emotional watershed, and I note the major media does not go into a frenzy over most killings. After all these years of working with the media, my first guess at why they hyped the Ottawa shooting was because it was a novelty. The fact that somebody in Canada would shoot a soldier and rush into the House of Commons with a gun is so un-Canadian as to be a novelty. As well, it was probably a slow news day. That does not mean that you and I have to make a mountain out of a molehill.

We have to view the major media broadcasts with great objectivity. We have to assess what they get out of the news they present. Most of us still think the news, any news, is about telling the truth so we can be better informed. This is not the case with major television media in particular. They are in the business of turning us into loyal fans of their news broadcasts. They are selling us their news. That is why we hear about some rescued animal, or some victimized poor person, or some Hollywood celebrity being pregnant. They want to appeal to as great an audience as possible so their ratings go up. The news broadcasts are not about the news, they are about salesmanship. The higher the ratings, the more advertising they

can sell, and it is the commercials that pay the wages and keep the television station in the money.

Most television stations are running two hours of prime time news. Generally, the second hour is a repetition of the first hour. Prime time news has time to tell us a lot more about what is going on in the world, but it does not. For most news stories, there is no follow-up. For example, what's happening now in Ukraine? How many refugees are the Turks having to feed this week? How good is China's economy now after the downturn earlier this year? How is Prince Phillip's health today? What progress is being made on the LNG development? How many Canadians went to a food bank this week? The major media could be telling us this news, but it is not sensational enough, or cute enough, or sad enough, for them to bother. Their goal is to make you react with emotion to the "news" they present, so you will choose their 'news' tomorrow and the next day.

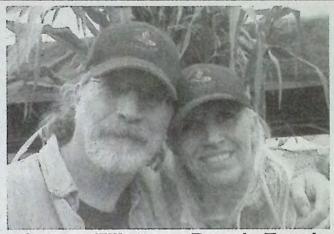

The major media news is rarely real news these days. I find more real news on my computer than on my television set.

As for that misguided young gunman, I doubt he really understood how to put meaning into his life. Did he understand that each of us is only one out of billions of people on this planet, and our chance of being famous is almost nil? Did he really understand that going out and shooting a soldier and being killed would be meaningless two weeks later? I have not mentioned his name because I doubt any of my readers remember his name now that weeks have passed. True fame rests in doing something that gives meaning to the lives of other people. The majority of us give meaning to our lives through contributing to the well-being of our families and our communities, right where we are, and our names will be

As for the government of our nation, the shooting could not have happened at a more favorable time, as they were trying to pass a law that would allow them to spy on everybody legitimately, and would allow government agents to restrict our freedom to travel and allow us to be arrested on 'suspicion' of having terrorist ideas.

All Similkameen Valley community groups can learn a thing or two from watching what other groups in the area are doing. On November 9th the Timberline Cruisers Snowmobile Club of Tulameen joined together in an organized effort to collect firewood for area seniors. This is apparently an annual project of the club which is so organized we just stood and watched pick up truckloads get filled before our eyes. This group really knows how to put the spirit back into community spirit and it shows with the efficiency in which this project is carried out.

THE PROPERTY LOCATED AT 915 7TH AVENUE Lot B, DL 174, Plan 976 SDYD IN KEREMEOS, BC HAS BEEN SOLD AT TAX SALE

THE PROPERTY

PROPERTY OWNER
GEOFFREY HUDSON
HAS
UNTIL SEPTEMBER 29TH, 2015 TO REDEEM

### Electoral Area 'G' Report

#### **Director Angelique Wood**

### Thanks for sharing your thoughts about community Reflections on being an Electoral Area Director for Area G

Area G of the Regional District Okanagan-Similkameen is unique and diverse.

Three years as an Electoral Area Director has taught me that some of our greatest strengths are also our greatest weaknesses. Our opportunities present themselves as challenges too.

Area "G" RDOS has the second largest land mass, at 2122km2,

and a population of only 2,314 according to the 2011 Census. We exist in a vast area, with remote communities, pristine lands and a wild river, with strongly independent residents.

We have old mining town communities challenged to maintain hundred year old infrastructure; newer developments of rural Keremeos have greater wealth and land base but still face the challenges of a rural community, dealing with transients and a lack of regulation in most of the region. Resource extraction remains one of the most lucrative industries, and our Community Forest management is challenged by standing pulp too costly to remove, which has become a fire hazard.

...... continued on Page 18

How slick is this? Pre-measured and cut to fit firewood thanks to the Timberline Cruisers. \*

Jack Thomas works on Princeton Town Crew. On November 7th he had an interesting assignment assisting fellow members of the crew in mounting the new Susan Allison mural on the outside of Princeton Legion in downtown Princeton. The interesting part comes from the fact that Allison is Thomas' great-grandmother! Photo: Nadine McEwen

### Living Past 100

#### The Hard Fat Challenge

Going through a weight loss program is always rewarding at first, but then it becomes discouraging when, day after day, you stand on your scales and the number is the same as yesterday. This is very frustrating. For some people, the lack of reward leads to abandoning the program as useless. Things like Christmas happen and the weight loss program turns into a weight gain program.

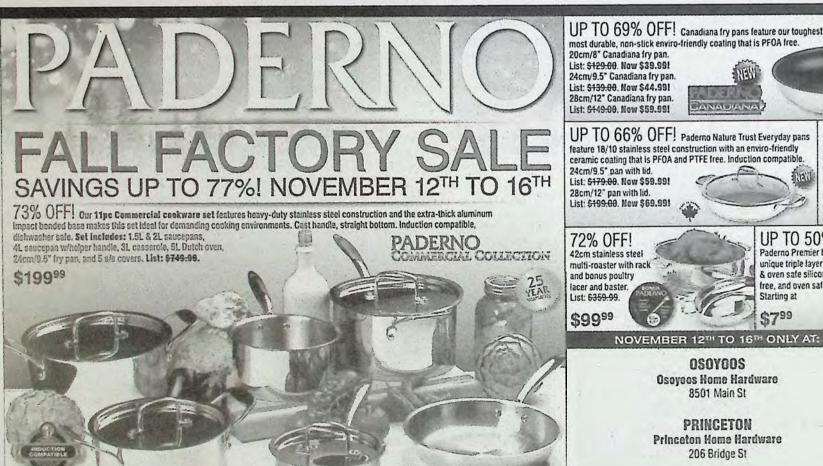

Part of the problem of losing weight is hard fat. When you were putting on weight, the last weight you gained is softer fat than the first fat you gained. You can see the difference in the meat of chickens. The fat of a young frying chicken is white and soft. The fat of an old stewing hen is yellow and hard. It is old fat. It does not break down easily. You have that kind of stubborn fat in your body, too, and it is difficult to make it dis-

You would have to go into complete starvation before the hard fat started to dissolve, and starvation is not healthy. However, the Japanese and Chinese have learned there is a way to make the old, hard fat turn softer. Their secret is the daikon (pronounced die-con) radish, also known by its Chinese name, lo boc. This radish is enormous, and looks nothing like the small red radishes we are accustomed to in our salads. Daikon radishes are available in your supermarket. You buy it by the chunk, as a whole radish is far too large to use quickly or to keep fresh for weeks.

The daikon radish is great in a stir-fry dish, and works best when eaten with red, orange and green vegetables. This radish is excellent in soups, too, adding a spicy flavour.

Here is a recipe for a soup that will help rid you of that hard fat. Into a pot containing one liter of clear chicken broth, put equal amounts of grated daikon and carrot. Add half an onion, chopped, and three or four cloves of garlic, minced. Select a green vegetable such as kale, Swiss chard, broccoli, or a small zucchini used skin and all, and add some of this vegetable to the soup to your own taste. Simmer until all vegetables are soft.

Eat this soup daily for a month while on your weight loss program and, according to the Japanese and Chinese, the hard fat will begin to melt away. This recipe is a healthy alternative to some of the new weight loss products on the market. While eating this soup, do not think you can cheat on your program, and please continue to get plenty of fresh air, sunshine and exercise.

### Scallywags and Swashbuckling

#### How to Put on a Pirate Show in Princeton...in Ten Weeks

The rehearsal on November 6th for Crimson Tine Players' production of 'Yo Ho Ho! A Pirate Christmas!' started with a couple of minor glitches that were ironed out quickly. While someone was trying to find keys to access the sound booth, Music Director Leanne Atkinson and Choreographer Layne Robillard put the actors through vocal and stretching exercises.

By the time they were done Director Rhianfa Riel had solved one issue and got the actors on stage for what is called an 'off book' rehearsal or, in other words, a rehearsal where actors had to be on stage without their scripts. They weren't cast adrift in any way as they all had everything memorized at this point and Dawn Gardner was off stage providing prompts when they were needed to assist actors who had temporary memory lapses.

The bulk of the rehearsal last Thursday night was on another dance scene where Robillard and the members of the cast worked out details in something I'll call a fight scene, although it really isn't although there is a fair amount of sword play involved as the actors sing another song.

The first run through was pretty good considering it was the first time they had gone through the choreography on this scene on stage.

Props and scenery are coming along very well with a pat on the back going to Set Builder Martin Riel and Set Painter Grace Truesdell. I went to Riverside Theatre early to 'snoop around' and found Truesdell working on a giant piece of the set that plays a big part in a couple of scenes in the play. Although she was experiencing an equipment failure, she was still very pleased with progress made in the overall production to date.

As for activity on stage, I noticed one redhead who must have the entire script memorized, as she was lip-syncing lines of other actors as they were saying them. That impressed me quite a bit.

Add to that the hilarious character traits Brazilian Rotary Exchange Student Rui Ferreira da Silva added that kept Director's Assistant Victoria Gibb and I in stitches and I'd have to say it was a pretty fun night. It kept us distracted from the other small glitches Riel and Stage Manager Dianne Rainer were trying to rectify in the basement.

At one point Riel commented to me, "I feel I'm neglecting you" as she sped off somewhere to put out another small fire. I was actually too occupied to notice.

Riel did join me later to say she and Rainer had solved an issue related to snow, eliminated a gag involving water and had come up with a secret gag that she kept to herself.

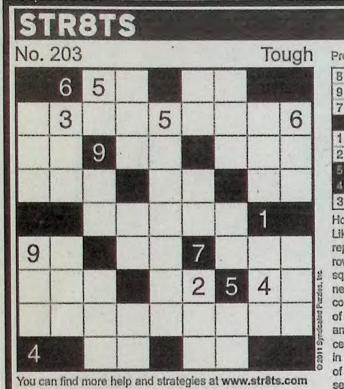

An added bonus to this Christmas production is the fact that you can save yourself the \$15 entry fee with a coupon in this week's Similkameen News Leader, All you have to do is go to Page 3 and clip out the coupon provided by Alannah Boisse of Century 21. Take that coupon on show night and you'll get in free! Even if you spent a buck on this paper to get that coupon you saved yourself \$14. Boisse told me last week she wanted to do this to support local live theatre so be sure to clip and use the coupon.

Anyone trying to pass off a photocopy will have to deal with Black-Eyed Johnny and his crew, which could result in walking the plank or some other dastardly fate.

### News Leader Str8ts

along with more puzzles, Apple apps and books.

Previous solution - Medium

How to beat Str8ts -

Like Sudoku, no single number can repeat in any row or column. But... rows and columns are divided by black squares into compartments. These need to be filled in with numbers that complete a 'straight'. A straight is a set of numbers with no gaps but can be in any order, eg [4,2,3,5]. Clues in black cells remove that number as an option in that row and column, and are not part of any straight. Glance at the solution to see how 'straights' are formed.

### Vermilion Forks Field Naturalists

#### **Group Treks to White Sands Beach**

by Janis Wright, VFFN

Vermilion Forks Field Naturalists benefited from yet another day of wonderful weather on Ed Staples' November 1st field trip to White Sands Beach. Eight of us made our way along the KVR trail from Coalmont, some of us walking and others cycling, with arrival times somewhat staggered throughout the morning. A lone bald eagle watched over us as we started our trek between sandstone bluffs and the gently flowing Tulameen River, with colourful bushes and bare aspens in the background. We carried in wood and quickly had a fire going once we arrived at the beach. It kept us warm while we cooked our food, and lunch lasted a good two hours, enhanced by laughter and the sharing of tasty treats! We were blessed with warming sunshine on our return trip, and once again we gave thanks for our good fortune – enjoying fresh air and striking scenery in the company of good friends – it doesn't get any better than this!

Our next hike will be Saturday, November 22nd, when Jeannie Walker will lead us on a 4-hour hike at China Ridge. Please confirm attendance with her at 250-2953047 and meet at Billy's Restaurant parking lot by 9:00 AM for carpooling.

Please join us for our next meeting on Tuesday, November 11th, 7:00 PM at Riverside Centre, when Kelley Cook will speak on the Cascade recreational area. Our meetings and field trips are always convivial affairs, and guests or new members are always welcome!

### **PrincetonBCNews**

#### ELECT Bob Coyne - Area H

Thank You to the people of Area H

I would like to thank the people of Area H for the opportunity to talk to them about local issues over the past weeks. I would also like to thank all the people who supported me so far, I have learned more about the issues and events that shape the lives of area H residents in these past weeks than anyone can imagine.

We have 8 distinct communities in area H. the concerns of East Gate, Coalmont, Tulameen, and Missezula Lake are similar. Osprey Lake, Erris, and Allison Lake have different issues, and what is commonly called Princeton Fringe has totally different concerns. Whoever is elected as regional director must know these issues and work with all of these community groups. The priority of egional director must be the wishes of these people and their communities.

I have said from the start of this campaign that I don't have an agenda; my only wish is to represent all the people of area H.

I have stated that if elected I would resign from the executive of China Ridge Trails. There has been a new development on that subject. I did not resign at our AGM on November 4 I have accepted the position of vice president. I was under a lot of pressure to stay on, I went to the RDOS office and asked for clarification on whether or not I would have to resign if elected. They said no. This issue has been taken to court and was ruled that unless I personally would gain financially I did not have to resign.

I had the honour to participate in 2 all candidates' forums, one in Coalmont and one in Princeton, The forum in Coalmont was very casual and well attended. I would like to thank the Coalmont Hotel for hosting the forum, what an incredible venue. The other was in the Princeton Legion, this was a very structured format with good turnout. Thanks Lori and Keith for hosting the forum. I thought all the candidates did a good job of answering questions to the best of their knowledge. I would like to thank both the other candidates for being polite and respectful throughout the campaign.

Whoever you decide to vote for please remember to do it with a clear conscience, and remember that person will represent your wishes for the next 4 years. Please vote.

Thank You, Bob Coyne

### News Leader Weekend - Sunday / Monday Movies

#### **SUNDAY MORNING**

8:00 am SPIKE ch.44 "2 Fast 2 Furious" (2003, Action) Paul Walker. A former policeman and his friend work with a U.S. Customs agent to indict a launderer in Miami. (In Stereo)

9:00 am WTBS ch.3 "Tangled" (2010, Musical Comedy) Voices of Mandy Moore. Animated. Crowned with 70 feet of magical golden hair, Rapunzel strikes a deal with a charming thief to spring her from her prison tower.

10:31 am SPIKE ch.44 "Mission: Impossible III" (2006, Action) Tom Cruise. Now a trainer for IMF recruits, agent Ethan Hunt squares off against the toughest foe he has ever faced: a ruthless arms and information broker. (In Stereo)

11:00 am WTBS ch.3 "Shark Tale" (2004, Comedy) Voices of Will Smith. Animated. A bottom feeder pretends to be a fearsome shark slayer after the son of a finned hoodlum meets an accidental death.

A&E ch.9 "Hellboy" (2004, Fantasy) Ron Perlman. The son of the devil helps a top-secret organization investigate and destroy paranormal creatures. (In Stereo) (CC)

#### **AFTERNOON**

12:00 pm FAM ch.26 "High School Musical" (2006, Musical Comedy) Zac Efron. Students conspire to prevent a basketball star and a shy newcomer from singing in a stage production. (In Stereo) (CC) 1:00 pm WTBS ch.3 "Envy" (2004,

Comedy) Ben Stiller. A man becomes jealous after his best friend's invention, a spray that dissolves animal

feces, brings him wealth.

1:30 pm CITV ch.12 "Eat Pray Love" (2010, Drama) Julia Roberts. Premiere. Facing a crossroads in her life, a divorcee travels to Italy, India and Bali on a quest to change her life and find true happiness. (CC) 2:00 pm YTV ch.18 "Alpha and

Omega" (2010, Adventure) Voices of Justin Long. Animated. After park rangers relocate them halfway across the country, a carefree wolf and his stern companion must find a way back to their pack to prevent a war. (In Stereo) (CC)

2:30 pm CHBC ch.4 BCTV ch.11 "Eat Pray Love" (2010, Drama) Julia Roberts. Facing a crossroads in her life, a divorcee travels to Italy, India and Bali on a quest to change her life

and find true happiness. (CC) 3:45 pm YTV ch.18 "Happy Feet" (2006, Adventure) Voices of Elijah Wood. Animated. Born without the ability to sing, a young emperor pen-guin expresses himself and hopes to attract a mate through his amazing

dancing talent. (In Stereo) (CC)
5:00 pm CBC ch.13 "The Little
Mermaid" (1993, Adventure)
Animated. To marry her true love, a mermaid princess risks being turned into sea foam. (In Stereo) (CC)

#### **EVENING**

6:00 pm WTBS ch.3 "Collateral" (2004, Suspense) Tom Cruise. A contract killer hijacks a cab and forces the driver to transport him to his assigned jobs in Los Angeles.

### News Leader Sudoku 531

### **HOSHI SUDOKU - About The Puzzle**

Sudoku - also known as "Number Place" - is a logic-based, combinatorial number-placement puzzle. The aim of Sudoku is to enter a number from 1 through 9 in each cell of a grid, most frequently a 9x9 grid made up of 3x3 subgrids. Each row, column and region must contain only one instance of each number. This Sudoku variant is called "Hoshi Sudoku". It contains six large triangles. The numbers 1 to 9 must be placed into the cells of each large triangle. Every line of any length - even uncontinous - must contain every number not more than once.

### Saving Downtown Princeton...

### ...An Ongoing Series by George Elliott

The proposed satellite boundary extension by the Town of Princeton to include Copper Mountain Mine for taxation purposes has left some residents with a lot of interesting questions.

I don't plan on looking into them because I could just as easily phone town hall for the answers and publish them here but I think it's time some of you started phoning them with your questions.

What I do want to do is look at what the estimated \$350,000 can do

1

to save downtown Princeton. I did touch on it once before but now I want to dig a bit deeper and present a wish list of sorts to help the new Town Council in spending that money.

First off, I am using the number that the town has suggested this Boundary Extension will generate. I am not including costs associated with the implementation and annual maintenance of that chunk of money.

You and I both know that the words 'aquatic centre' will once again come

bubbling to the surface once the first \$350,000 cheque gets cashed. As a downtown business owner I can't entirely blame them but I do see other ways to spend that money that would truly benefit downtown Princeton as well as the rest of the community.

On the very top of my list would be looking at existing infrastructure. As I seem to recall one of the reasons the Boundary Extension has come about is to provide the municipality with the cash necessary to carry out some major infrastructure projects.

To me this means either a new roof at Princeton Arena or the completion of a proposed expansion at that site that seemed to fizzle once prices started to appear. It's a multi-purpose facility, as stated in its name. Let's fix the leaky parts first before we start building new toys.

Next, I would look at fixing some local roads. I'd list a dozen or so of them in need of anything from curbing and sidewalks to widening and

new pavement, but I'm sure you'll have your own favourite road in

I think I would then start looking at putting in place a top notch, extremely professional marketing plan to promote Princeton, the industrial park, airport and all the other good things we already have that we've just fixed with the first three years of revenue generated from the Boundary Extension.

Assuming the mine stays in business for fifteen years, although they keep setting records making me think they want to finish the job faster, and assuming the taxation bonus coming to the Town is in fact \$350,000 and not something closer to \$35,000, we can expect a grand total of \$5.25-million in 2014 dollars.

I'm also going to assume the town would be using this money to leverage matching dollar grants for various infrastructure improvements, which means there could be \$10.5-

million available over the next fifteen years,

I am a firm believer in the premise of fixing or finishing things you currently have before you start adding to them with new things. With this in mind, I can see the revenue generated from the proposed Boundary Extension as not only benefiting the Town of Princeton, but being used by Area H and if spent in sensible ways, everyone wins.

How does this save downtown Princeton?

There has been a lot said about how amenities are needed in the community to attract new people to the area. At the same time there has been a lot said about how those new people can have an effect on services required in the community. More people puts strain on existing services but with an increase in demand comes an increase in new services and businesses to our community and that's one component in the equation to save downtown Princeton.

In Memoriam

In Memoriam

Remembering Dan 1944 - 2013

It's hard to believe 12 months have passed and we still miss you every minute of every day. Daniel Lee Seaman was a loving outstanding father, a cherished son, and a pillar of strength to his family and friends. Dan was born on his father's birthday, September 22nd, right here in Princeton. Dan attended school in town where the Dairy Queen and shopping mall are now located.

He met his future wife Carol, at the old coal tipple in 1956, now the area has a bowling alley, two MHP's and a school. Dan spent time on the Westly Ranch in Alberta, and then in 1960 he returned to B.C. to work on the Gang Ranch. By 1962 he moved to the lower mainland, married his pen pal Carol the following year, and then moved to Surrey to raise a son and two daughters who stole his heart.

Dan was well respected by his employers at both Timberland and later at Northcoast. He was known for his compassion, jovial nature, and his love of practical jokes. He loved people and always went the extra mile when hosting a family reunion or just having a group over for a BBQ. He was a keen sportsman throughout his life, loved the color of autumn, fishing, hunting, and playing senior's hockey. Dan took great pride in his back yard, turning it into a park, with a big fire pit, and horse shoes, and dart games and a lawn designed for Bocce. He spent many hours riding his bike, playing with the dogs and vacationing with family, especially in Maui.

Dan is lovingly remembered by his wife Carol of 50 years, and his wonderful children Josh, Kema and Cora-lea, four adoring grand-children, Katelynn, Brennan, Dylan, and Shea-lynn. He also left behind 3 sisters and his brother Cal who he loved so much.

> We do not think of you as gone, Your journey's just begun. Life holds so many facets, This earth is only one. Just thinking of you as resting, From the sorrows and the tears, In a place of warmth and comfort, Where there are no days or years. Thinking of you as living, In the hearts of those you touched, For nothing loved is ever lost, And you were loved so much.

Saturday, November 8th was the annual Open House at Reichert Sales & Service in Tulameen. According to co-owner Ed Reichert, the years keep flying by as 2014 marks over "forty-some years" they have been in business. According to News Leader archives they hosted their 46th Open House last week. The coffee was on, doughnuts were available and family and friends enjoyed visiting and welcoming the start of the new Ski-Doo season with a stop at Reichert's. Ed even showed us some of the fancy new models he had stashed away from the display room.\*

#### .....continued from Page 6

With an ageing population, new residents are needed to "carry the torch". We need young families to take care of the social and community functions which our senior volunteers are maintaining with difficulty but do so because of their commitment to community; we need care for these elderly to keep those who built our towns here with the opportunities to remain healthy, and part of our communities as long as they wish.

With petroleum prices on the rise, we need to be creative with our resources and our strategies to bring services back to our community; this is a problem across rural Canada that all levels of government are working on solving. As a SIBAC (Southern Interior Beetle Action Coalition) Board member, I have had an impact on Provincial government policy, with the recent creation of the Rural Advisory Council announced in September 2014. There is much more work to do to shift a 40 year policy of urbanization, but this is a start.

With energy prices on the rise, we need young people to learn food preservation skills from our farmers, orchardists and elders – we need to rebuild our knowledge bank on dehydrating, canning and smoking

foods. The functioning Grist Mill is a valuable resource both as a gathering space and as teaching centre.

I have worked extensively with both the MLA Linda Larson and the Ministry of Forests, Natural Resources and Operations, Mayor Bauer and Director Bush; many letters were written, I've worked at securing media coverage, and have been meeting face to face with the Operator Chris Mathieson and the Grist Mill Foundation.

We need to live with less and learn to live more because of it. We need to work together to build a future for all of us, or there will not be a future for many of us. In closing, I am pleased to announce a \$200,000 Gas Tax grant has been awarded for an Ultra Violet Water Treatment of the Olalla Water

System. Residents will recall the "boil water" advisory of 2012 and can rest easier about the water quality in this small hamlet.

If you thought the showroom at Reichert Sales & Service had some impressive toys you had to see where we ended up November 8th during their annual Open House. Ed Reichert showed us the collection of new Ski-Doos not on display.

## Princeton Garden Club

#### **Doreen Poulsen**

The last few months were very interesting in the Garden Club! A number of our members participated in the Fall Fair. Either manning a booth or had entries in the various categories that had to do with gardening.

Barb Gagnon the Recreation Coordinater at Ridgewood Lodge contacted us to see if we would be interested in looking at their gardens and give her some advise on how to go about rejuvenating them. The gardens had become very overgrown in some places while in other areas the vegetation was dead and full of weeds. A few of us initially met with her and marked trees and shrubs that were badly in need of pruning and some to be totally removed. We also identified other

areas that required work. We decided to get a head start on spring by having a work party on October 27. We started that morning at 8:30 AM. There were ten of us from the Garden Club and the Rotary Club. We dug, pulled, pruned and raked creating large piles around the garden for disposal. The weather was cold but dry and we managed to get about three-quarters of the garden done. In the spring we will be back to finish the job and hopefully improve the space with some nice plants and flowers. If you would be interested in assisting us next spring please contact me!

Earlier in the month at our regular meeting we decided to change our monthly meetings from the second Tuesday to the third Tuesday of the month. We meet most months at the Seniors Centre at 1:00 PM. Our next meeting will be on November 18th. The December meeting will be a Christmas Pot Luck lunch at a members home. In the New Year our January meeting will be on the 20th at 1:00 PM.

Just a reminder that our garden book "Yes! You Can Garden in Princeton!" is still available for sale. A great little gift for someone who loves gardening or is thinking of starting a garden. Available for only \$18. at Everything Pets, Fletcher Building Supplies (Ace Hardware), Winking Pedlar, Art Gallery and The Image Emporium. Or just give either our President Laila Bird at 250-295-0740 or myself a call at 250-295-1577.

Princeton Posse hosted Kelowna Chiefs November 2nd in the only game for the Similkameen team on that weekend.

Kelowna scored first at 5:55 of the opening frame (Brady Mende from Nicholas Gnazdowsky).

Princeton tied the game just 9seconds later with an unassisted

goal scored by local boy Morton Johnston.

Princeton took the lead at 8:25 of the second period when Cooper Prechel took a pass from Destin Robinson and fired it into the Kelowna net.

The Chiefs replied on the power play at 2:55 just as two Posse

penalties were about to end. Stephen Heslop and Estevan Hale were keeping each other company in the Posse penalty box while Kelowna worked on capitalizing on the two-man advantage. It came together with one second left in the penalties when Dylan Jamison scored. Assists went to

Brady Mende and Nicholas Gnazdowsky.

The back and forth play of the game continued to take place on the scoreboard when Princeton took a 3-2 lead at 9:54 of the third period. Eden Dubchak got the marker with help from Thomas Cankovic.

The Chiefs returned to tie the game once more at 6:59 when Curtis Harrichhausen scored off a pass from Kevin Roth. Anthony Ruggiero was credited with setting up the play.

The game rolled into overtime with the first five-minute extra

frame passing by quickly. At 1:41 the second overtime Kelowna's Chris Turner was awarded a penalty shot but it could not penetrate the wall set up by Posse goalie Stephen Heslop.

The second overtime period ended with no further scoring.

Final score: Princeton 3, Kelowna 3 (Double OT Tie). Shots on goal: Kelowna 43, Princeton 27. Penalties in Minutes: Princeton 5 for 10-minutes, Kelowna 3 for 6-minutes. Kelowna went 1 for 4 (25.0%) on . the power play with Princeton ending up 0 for 2.

Remember hearing the story about the kid who found a lump of coal in the bottom of his Christmas Stocking? Sure, for a long time you didn't believe it could be true but then one year you were quite certain you were going to be that kid. You did just about anything possible to avoid the dreaded lump of coal. You went to bed early. You did all your homework. You cleaned up your room. You took out the garbage. You washed your dishes. You even washed behind your ears at bath time. There was no way Santa's spies were going to be able to pin that 'Naughty' label on you and leave you with nothing but a lump of coal in your Christmas Stocking.

At JamBusters we can relate to that having seen our share of coal - always at someone else's house, by the way - so we created a way to prevent you from ever seeing coal again in your life. We have just come out with our Christmas Tubes! Fill them with up to three of

JAMBUSTERS IS MARKETSAFE CERTIFIED FOR YOUR SAFETY

our unique products to make a great JamBusters Christmas gift. We call them coal repellents, and they work!
