Princeton Rotary Club Treasurer Judy Short, left, presents Susan Brown of IHA with a cheque in the amount of \$3,557.00 to be used to purchase seating for the waiting area at Princeton General Hospital. The chairs are specially designed for individuals with mobility issues. The Rotary Club contribution went to the South Okanagan Similkameen Medical Foundation and earmarked for Princeton. - photo submitted Town upgrades local parks

Work is underway at Memorial Park in two locations. The ball diamonds will be improved, and the picnic area near Centennial Pool will have more picnic tables and playground equipment. The beach volleyball pit will be 'refreshed.' A new feature will be appreciated by people picnicking in the area: a 'cool off' water spray will be added. The Centennial Pool park area offers access to the Similkameen River, which is a popular advantage enjoyed during the summer months when the river is low. It is a great spot for a family picnic.

A new park is planned for the area west of the wooden bridge at the north end of Bridge Street. The new recreation area is called Bridgeview Park. This area included a pathway .....continued on Page 3

# **CMMC receives mining award**

Copper Mountain Mining Corporation (TSX: CUM) (the 'Company' or 'Copper Mountain') announced April 19th that, for the second consecutive year, the Provincial Government of British Columbia has awarded the Edward Prior Award for mine safety to the Copper Mountain Mine.

Established 50 years ago by the B.C. Minister of Mines and Petroleum Resources to recognize the safety record of mines in the province, the Edward Prior Award is presented annually to the midsized mining operation having worked between 200,000 and 1,000,000 hours during the year, with the lowest injury frequency rate (Loss Time Incident). Representatives from the Copper Mountain Mine attended the B.C. Mines Safety Awards Banquet in Victoria and accepted the award on behalf of all team members at the Copper Mountain Mine.

Jim O'Rourke, President and Chief Executive Officer of Copper Mountain Mining, said, "We are extremely proud of our mine employees for their dedication to safety. The mine has continued to work loss time incident free and, as of the end of the first quarter of 2016, has achieved 966 days - the equivalent of over 2 million hours, worked loss time incident free. Once again, this award acknowledges the dedication and strength of our operating team and reinforces our ongoing commitment to safety while continuing to achieve new operational efficiencies and production records."

About Copper Mountain Mining Corporation:

Copper Mountain's flagship asset

is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Company has a strategic alliance with Mitsubishi Materials Corporation who owns the remaining 25%.

The Copper Mountain mine commenced production in the latter half of 2011, and has continued to improve its operations since startup. The 18,000 acre site has a large resource of copper that remains open laterally and at depth. The mine has significant exploration potential that will need to be explored over the next few years to fully appreciate the property's full development potential. Additional information is available on the Company's web page at www.CuMtn.com. - submitted

At the April 18 Town Council meeting, the 2016 tax rate bylaw was given three readings. This bylaw followed the adoption of the Town of Princeton five year Financial Plan.

The Town of Princeton tax rates bylaw includes the tax rates for the town, Okanagan Regional Library, Regional Hospital District and

You

Regional District of Okanagan-Similkameen.

This year's tax rate total for the average home, in dollars, will be \$28 higher than last year, at around \$740 for an assessed value of around \$180,000. Business taxes will be slightly lower this year.

The actual tax bill sent out to

PrincetonBCNews

property owners will be higher than the amounts calculated for the Town.

The total tax bill will include property taxes for education, policing, Municipal Finance Authority and BC Assessment Authority.

Motocross track. The Town has hired a contractor to do renovations on the grandstand and work has begun. Work is in progress in the concession, improving convenience and safety. Work has begun on the tool crib to make it more efficient.

**own Counc** 

Last weekend, barns were power washed in preparation for painting.

Work parties will take place April 30, May 7 and May 14 and 15 as various groups work on a variety of projects, including cleaning the grounds. Repairs to the pens will be

one of the projects.

May 14 and 15, Princeton Riding Club hosts a horse show. On May 27, 28 and 29, Back Country Horsemen hold a Rendezvous to celebrate the 25th anniversary of the founding of their association. Members of the group are working with Paul Bedard on barns and pens.

On June 11 and 12, the annual rodeo will take place. Sometime in June, an information session on toxic weeds will be held at the grounds. The public will be invited. A team roping event was discussed as a possible June event, but the PXA has not received a proposal from the Rodeo Club in regard to the event.

When the initial round of work and events is done, work will begin on renovating the livestock display area used by the Fall Fair Association. This will include removal of false fronts, for safety reasons, and the construction of a new fence so animals can be brought from their pens and shown more effectively.

Work parties will continue until November 1.

by Spencer Coyne

The Town is going to be holding a Tourism Trade Show in May. It will be an opportunity for businesses to get to know what there is to offer here in Princeton and how to be community ambassadors. This is a great idea. I have been saying for years that we need to do something to get everyone on the same page to sell Princeton to anyone who stops in our community. This got me thinking back to the early 2000s when I was on Council and about some of the work we were doing with the Similkameen Valley Planning Society.

Back then we had all kinds of Bed and Breakfasts spread across the district. We had people offering tours in different areas from Tulameen to Chain Lake. Although most of the operations were based within Area H, the Town saw at that time the Chamber of Commerce's Tourism Information Centre as the hub that would inform travelers of all the great things to do while in our end of the Valley. With our partners in the Similkameen Valley Planning Society, we were working together to create a valley wide marketing tool that would not only sell the great things to do in Princeton as well as from Manning Park all the way down to the US border. We were looking at tourism not only as a Princeton thing, but a regional opportunity that would benefit all of the communities within the valley especially Princeton. Being the largest community in the Similkameen, we envisioned Princeton being the main hub for day trips, fishing trips, and countless other adventures that would see people exploring all that the Similkameen had to offer. Through

the Chamber and the Similkameen Valley Planning Society's model of cooperation, we saw not only the Town of Princeton as well as the Upper Similkameen Indian Band and the Area H director working towards this goal. Through this model of cooperation we saw the Upper and Lower Valley both get new community forest licenses. We had made plans for tourism development where the USIB was interested in creating a RV Park down by the Chamber Building beside the river, an interpretation centre, and we saw it all being tied in with a walking bridge across the river to what is now called the Two Rivers Park. Unfortunately at the time we were unable to get the needed funding to move forward, but to us that didn't mean the idea was dead in the water.

Over time things change.

# Town upgrades local parks

.continued from Front Page from Allison Flats to the wooden bridge, a pathway dating back far into the past century. It was privately owned land until last year when it was purchased by the Town to keep the pathway open in perpetuity. The site includes river dyke walking space.

Phase one of the development of this new park will involve cutting brush overhanging the path, identifying legal boundaries and leveling the site. Phase two will see underground water lines for irrigation, paving the pathway, planting shade trees, installation of benches and basic landscaping work. The next two phases will lead to a play features for children and an outdoor fitness area for adults, but these phases are not yet funded.

Administrations change, and with that agendas changed. What made me think of all this is talking about economic and tourism development, we can't do this on our own. We need to work regionally to develop our tourism market. Sadly a lot of those operators who were

here back in the early 2000's are no longer around, and I personally feel that the focus on tourism development took a back seat to other plans. I am glad to see there is some sort of plan by the Town to at least start talking about tourism again. ... continued on Page 20

RDOS Nuisance Mosquito Control Program Starts Early In 2016

Due to the warm weather, early spring melt, and increased number of complaints, the RDOS Mosquito Control Program has started earlier than usual this year. If you reside in the RDOS Electoral Areas or municipalities listed below, and have areas of standing water bodies too large to drain on your own, call: RDOS Mosquito Control Program: 1-877-610-3737 x 4142 or 250-490-4142

Program coverage: Electoral Areas: 'A,' 'B,' 'C,' 'D,' 'F,' 'G,' and 'H' as well as the City of Penticton, District of Summerland, and Towns of Oliver and Osoyoos

At your home be sure to mend screens and reduce sources of standing water on your property. Clean and unclog eaves-troughs, gutters and remove water from any depressions on your roof or driveway.

Remove standing water from yard items such as tires, plant pots, small troughs, pool covers, rain barrels, tarps and wading pools. Look around your property for anything that can hold water for 72 hours or more will provide an excellent habitat for mosquitoes.

For more information on nuisance mosquitos visit: http://www.rdos.bc.ca/departments/public-works/pest-control/

RDOS Mosquito Control Program Manager: Zoe Kirk, RDOS Public Works Projects Coordinator, zkirk@rdos.bc.ca

### Important Information for Owners of Fruit Bearing Trees or Shrubs

Similkameen Recreation Commission - Invitation to Serve as a Member

Applications are being sought for individuals interested in serving on the Okanagan Falls Recreation Commission. This Commission is comprised of appointed local citizens (volunteers) who provided guidance regarding the management of parks operations, improvements

In order to be eligible to serve on the Commission, an individual must be a resident of the local service area or own real property within the local service area. The Director of Electoral Area 'D' shall review all applications and recommend candidates for appointment. Copies of the Okanagan Falls Parks and Recreation Commission Establishment Bylaw No. 2253, 2004, are available at www.rdos.bc.ca.

Any person interested in serving on the Okanagan Falls Parks and Recreation Commission can make application by submitting their name and a brief resume by mail, fax or electronically to:

In order to be eligible to serve on the Commission, an individual must be a resident of Electoral Area 'B' or 'G' or the Village of Keremeos. The Directors of Electoral Areas 'B' and 'G' and the elected representative from the Village of Keremeos shall review all applications and recommend to the Board of Directors the names of candidates for appointment. Copies of the Similkameen Recreation Commission Establishment Bylaw No. 1649, 1996, are available at www.rdos.bc.ca.

Any person interested in serving on the Similkameen Recreation Commission can make application by submitting their name and a brief

Since 2001, to protect the commercial fruit industry, the RDOS has had a Bylaw in effect to better control pests that attack tree fruits and/or berries in Electoral Areas: 'A,' 'B,' 'C,' 'D,' 'F,' 'G' and the Town of Oliver. This Bylaw has recently been updated to include new species and emerging threats. All owners or residents with fruit bearing plant material that reside in the areas covered by this Bylaw should refer to Bylaw 2711, 2015 to review the requirements and schedule of pests.

To view the Bylaw, the RDOS Noxious Pest Control brochure and other information links, visit RDOS web site under the Pest Control tab: http://www.rdos.bc.ca/departments/public-works/pest-control/tree-fruit-pest-control/

Local nursery staff can be very helpful in assisting residents with products and information to reduce the risk of tree fruit pests from infesting their fruit. Some of the common and destructive pests are the Western Cherry Fruit Fly and the Spotted Wing Drosophila (which can affect all soft fruits and berries). The RDOS has dedicated staff members to follow up on complaints of possible pest infestations.

Similkameen News Leader, 226A Bridge Street, PO Box 956, Princeton, BC V0X 1W0

The Times Are A-Changing

I was not a popular student in school. In fact, I was a bit disruptive. I'm going to say that I was well, very likely a pain in the butt for many teachers.

One thing I did get a few times during my school years was blamed for various issues that took place during the course of an average day in class. I may have deserved the odd one, but I did not deserve each of the accusations. However, looking back on it, I can see how I would have become a possible suspect due to my track record in class.

When I was in school, which, by the way, was in the 1970s, the usual course of action was a trip to the Principal's office for a rather stern talking to and either a detention or some other kind of punishment to keep me in line. Twice I recall it involved receiving The Strap.

My parents would receive a phone call and they would be summoned to pick me up, or they would be completely informed about my action, the school's action and I would then be faced with having to explain myself when I got home. This was normally followed by another form of punishment that was usually to do with outdoor or television restrictions.

Does that sound fairly straightforward to you?

Trust me, the lessons were learned and I was not such a problem in class and basically looked forward to finishing Grade 12 so I could get as far away from school as I possibly could. Still to this day I get a bit twitchy when I enter any school building.

I'm told that the times have changed and along with them the way in which students are disciplined in school. Apparently, if I was still in school and acting up I would get driven home by the teacher and following into our home by the teacher. I suppose that's to make sure I got home and in my room safely.

Oh, and my parents would not receive a phone call.

Since our world is built on 'reactivity' as opposed to 'proactivity' I would get to tell my folks what happened and then they would get to follow up with the school. It's a very different approach and I suspect the fact that I was accused of doing something in class would be a smaller concern to my parents when compared to the fact that my teacher walked into our home without any other witnesses present.

What if I was a teenaged girl and my teacher was a man?

My parents would be making a fair amount of noise about this. But, as I said, the times are a-changing and today's discipline is very different to when I was in school.

Either way, we still grew to respect our teachers for the effort they put into keeping us on track. Even if the odd one committed a booboo their line of duty.

# **Letters And E-Mails Received This Week**

.... Your Turn

To The Editor;

For years I have been annoyed with the amount of political bunk from the U.S. we have to endure on this side of the border, for almost a year.

Starting with the circus called Presidential Primaries, it is the most ridiculous side show anywhere on earth. If all this hoopla

actually succeeded in producing leaders of a better overall caliber perhaps it might be worthwhile, but does it?

I really doubt it, endurance and blather from the microphone appears to be their best quality. Also the ability to raise enormous amounts of money to fund these campaigns. Other democratic countries, can run an election from start to finish in two months approximately, and succeed in having leaders just as qualified and capable, with just a fraction of the money squandered on these campaigns. Money that could be better spent in dozens of ways, perhaps health care for a start. - Jim Hodge, Princeton

#### grants fight invasive plants Fraser-Nicola

The provincial government is providing a combined \$275,300 to five regional organizations to help control the spread of invasive plants, Fraser-Nicola MLA Jackie Tegart announced April 22nd. Interior Southern Weed Management Committee: \$130,000 Thompson-Nicola Regional District: \$20,000 Regional District of Okanagan-Similkameen: \$12,500 Okanagan and Similkameen

Invasive Species Society: \$71,300

Lillooet Regional Invasive Species

Society: \$41,500

These are five of 31 grants, totalling \$1.727 million, being distributed throughout the province in 2016 to local governments, regional invasive species committees and the Invasive Species Council of B.C. This funding will assist with these groups' ongoing activities and also support the objectives of the provincial Invasive Plant Program.

"Controlling invasive plants is just one example of how our government is investing in the future of the Fraser-Nicola region," Tegart said.

"Our communities and economy

rely heavily on ranching and agriculture, so it's important that these invasive species are not allowed to become established."

The grants will be used to help raise public awareness of invasive plant concerns, survey invasive plant populations and actively treat high-priority sites to control the spread of these destructive plants.

Invasive plants are species that have been introduced into British Columbia from other areas. They displace native vegetation and can cause considerable economic and environmental damage. Some pose a health risk to people (e.g. skin irritation). Invasive plants can .....continued on Page 8

The discovery of a human bone

in Siberia has led to the discovery

of another species of human in

addition to so-called 'modern'

man. Thanks to DNA, we have

had to adjust our thinking to, first,

all of us originated in Africa, and

second, the majority of us are the result of interbreeding with

Neanderthals. As we now know, Neanderthals did not disappear,

they merely interbred with the rest

Now there is a new group dis-

covered, and they are part of most

In a cave in Siberia, there was a

species of human science has

called Denisovans (pronounced

Deh - NEE - so -vans). They occu-

pied the cave with Neanderthals,

with whom they interbred, and

there is evidence from a cave in

Spain that the Denisovans were

there, too, along with the

Neanderthals. Both these species interbred with modern human

species, and all of us who are

descended from those who left

and are part of our DNA.

of us, too.

# **Just How Stupid Are We?**

## species.

DNA from a 400,000 year old hominid femur showed the Denisovans probably predated the Neanderthals. However, this DNA, like the Neanderthal DNA, appears to have existed as an addon after the first people left Africa. We are told, by Richard Leakey, that humans left Africa around 70,000 years ago. This leads us to the conclusion there were two other species of humans outside Africa, which seems to contradict the idea that all of us came out of Africa. Conversely, if all of us came out of Africa, then there must have been Denisovans and Neanderthals in Africa to begin with.

Today, Denisovan DNA is a higher percentage in native people living in Melanesia and Australia, but it is prevalent in native people of two places in Canada, and across the American southwest and Mexico, as well as throughout Europe and Asia. The Denisovan bone, from the cave in Siberia, dates back 41,000 years. So, 41,000 years ago, Neanderthals and Denisovans lived together in a cave in Siberia. That does not tell us much about who they were and what they looked like.

There is a scientific reluctance to refer to Neanderthals and Denisovans as 'human.' They are called 'hominid,' or "some sort of human type." We know from scientists creating a likeness, based on DNA, of what a Neanderthal looked like. The individual from which the DNA came was short and stocky, heavily muscled and fleshy. He had light brown skin and black hair, but carried the genes for red hair. At this point, there is no doubt he was human. I would guess the Denisovan was human, too.

Think about this whole picture: these humans had come out of Africa and had traveled thousands of miles, braved the elements and the dangers, adapted to diverse landscapes and climatic conditions. They had to have been adventurers, brave people who survived and adapted. They must have been highly cooperative, because it would have taken a group in order to survive. The bone found in Siberia was juvenile, so they must have lived as a family group, which implies caring for one another. Although they found shelter in a cave, or at least died in a cave, we do not know how they lived. All we know is they traveled far and wide and left their DNA nearly every place on earth.

These are our ancestors. Their descendants went on to create empires, magnificent structures, advanced agricultural techniques, arts and crafts of every kind. Our ancestors were not stupid, bumbling creatures, or they would not have survived. Yet we, their descendants, are far more stupid than they were. We have wars, and we threaten each other with weapons that could kill every last thing on earth. We pollute our planet every day in ways which, if we do not stop, will kill every living thing on earth.

Just how stupid are we? Our ancient ancestors managed to survive everything, even the great flood that devastated every continent on earth, and they rebuilt, passed on their knowledge, and contaminated their skills with making war on each other, but nothing like what we are doing today.

A representative from FortisBC, Carol Suhan, attended the April 18 Town Council meeting to outline a program in which local residences can have old, inefficient appliances, furnaces, insulation or draft-proofing done without charge. The program assists low income and fixed income residents.

For example, a refrigerator 18 years old or older could be

replaced free of charge.

There are a number of energy efficient products and advice available free of charge, including inefficient old gas furnaces.

To participate in the program, go online to http://fortisbc.com/myecap or call FortisBC. You will be asked to complete an application form and will be told in a week or two whether or not you are eligible to participate in the program. We need a new vision of reality, one that shows we are intelligent enough to keep on surviving on this planet, despite what the planet throws at us. We need to see ourselves in terms of our ancient ancestors, who braved everything and managed to go on. Our key to survival is not only the intelligence and adaptability of our species, but the adventurous spirit, the ability to cooperate and accept others as humans like us, and the ability to care for one another.

What would you see as a new reality for our species?

AND NOW ... A LITTLE GOOD NEWS!

"No one is like you, O Lord; you are great, and your name is mighty in power." - Jeremiah 10:6

# **Town of Princeton releases repair updates**

April 18, 2016

Town of Princeton Public Works Repair/Improvement Information Report

#### Date(s) Repair and/or Improvement Performed:

April 4 - 8, 2016 Description of specific System

Repaired/Improved: Water main located in Memorial Park area south of the Upper Similkameen Indian Band office. Purpose of Repair/Improvement: Repair major leak(s) Scope and Details of

# Repair/Improvement:

The 6-inch water supply line, which runs at a steep angle from the elevation of Highway 3 along a down toward the bank Similkameen River, was found to be leaking badly (as reported by a Princeton resident during a morning walk in the area of the leak) and was subsequently repaired by the Town Public Works Crew.

Approximately 110 feet of new

water line was installed. The installation included a proper sand base for the new piping and a new isolation valve which will provide for better service options to area properties in the future.

Contracted excavator service and Town of Princeton Public Works Crew completed this work by end of day Friday April 8, 2016.

It was determined that the most likely cause of the damage to the section of leaking pipe was improper bedding of the line on the incline during initial installation.

This work should be considered an improvement to the town water system as the materials used have a life expectancy of 50+ years.

#### April 18, 2016

Town of Princeton Public Works Repair/Improvement Information Report

and/or Date(s) Repair Improvement Performed: April 19 - 20, 2016

System Repaired/Improved:

1-inch Town of Princeton water service line to commercial property. Purpose of Repair/Improvement: To replace failed (leaking) Town of Princeton waterline serving private commercial property. located on the corner of Bridge Street and Highway 5A that runs across Highway 5A from Town main supply line that runs parallel along Highway 5A.

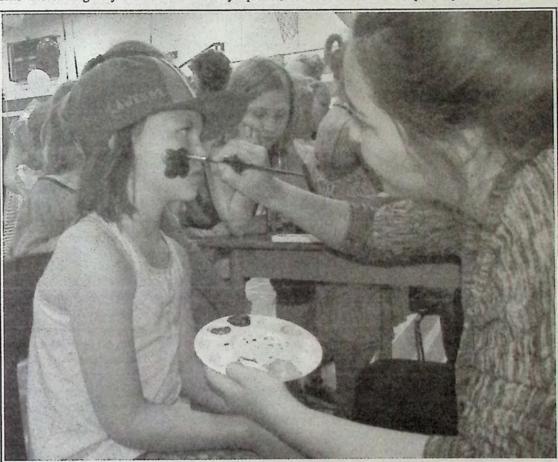

#### Scope and Details of Repair/Improvement:

This water line is located under Highway 5A at the intersection of Bridge Street and Highway 5A and runs across Highway 5A from Town main supply line that runs parallel along Highway 5A to the served property. The work requires excavation across Highway 5A requiring formal arrangements with the MOT, contracting of traffic control services, and Town of Princeton Public Works Dept. performing the work.

The water line is leaking from the connection point at the main supply line and will be corrected by replacing the entire line from connection at the main supply line to the shut off located at the served property. Town of Princeton Public Works Crew commenced this work on Tuesday April 19, 2016 and completed this work by end of day Wednesday April 21, 2016 and included the patching of the road.

To mitigate traffic pattern interruption/inconvenience at this intersection southbound traffic on Bridge Street was re-routed via Vermillion Avenue to Highway 3 by using barricades and signage to direct traffic flow. Motorists can access further information regarding this and other traffic pattern interruptions by contacting Drive BC.

This work should be considered an improvement to the town water system as the materials used have a life expectancy of 50+ years.

One of the popular stops during the 65th annual PSS Family Fair April 21st was the face painting table. \*

South Okanagan Boundary Labour Council has invited Town Council to attend an International Workers Day event at Gyro Park in Penticton on Saturday, May 7. Any Councillors are free to attend this event.

#### Keremeos Rodeo

Town Council will participate in the 78th Keremeos Elks Rodeo parade on Monday, May 23. Council members will ride in the 1934 fire truck during the parade. Praise for citizens

Mayor Frank Armitage praised the Sorry Charlie theatrical production of Crimson Tine Players, saying they had presented an amusing play which was done very well.

Town Council members offered appreciative comments for the work done by Dorothy Westfall, Marlyn

Smyth and Beatrice Bibby, nurses honored at a retirement party recently. Council praised their many years of service to the community.

Members of Town Council attended the memorial service for the late Stan Turner, and remarked on his dedication to a number of different organizations in the community. Mayor Armitage stated Turner had "enhanced the quality of life" in Princeton.

## **Public Works Week**

Town Council has proclaimed May 15 to 21 as Public Works Week.

# Local arts council receives grant

another in Princeton have received to live," Tegart said. a combined \$16,820 in grants from the B.C. Arts Council, Fraser-Nicola MLA Jackie Tegart announced April 20th. Grant recipients are:

- Nicola Valley Community Arts Council (Merritt): \$6,020

- Princeton Community Arts Council: \$10,800

"The arts are a vital part of what

One organization in Merritt and makes a community a great place

"These organizations contribute so much to the well-being of Merritt and Princeton, and I am pleased that our government is supporting them."

The funding comes from a record-high \$24 million the B.C. Arts Council received from the provincial government of British .....continued on Page 7

# **BCNDP to host rural issues conference in Fraser-Nicola**

BCNDPLeader John Horgan and Fraser-Nicola NDP President Harry Lali announced April 20th that the community of Merritt will host a Regional NDP Conference highlighting Rural BC issues and concerns where delegates will share their positive grassroots views, ideas and alternatives.

Horgan said, "I am really excited about coming to Merritt to hear first-hand from people living in the Southern Interior about what is important to them on issues of social, economic, environmental and Aboriginal justice."

"The weekend of May 6th and 7th will see over one hundred New Democrat supporters and friendly stakeholders from the region and the province descend on Merritt for our regional 'Rural BC Road-Map to Victory' Conference," said Lali, Conference Chair and former BC Highways Minister.

"This is only the second time in history that an NDP regional conference, sponsored by the elevenconstituency Southern Interior Regional Council (SIRC) of the NDP, will be held in Merritt. The last one was in 2006."

Karen Abramsen, the Chairperson of the SIRC-NDP, stated, "Delegates from around the province will have the opportunity to talk about the issues that are relevant for our livelihoods, our families, our communities, our economy, and for our geographic region. This is our opportunity to provide input to the NDP Leader, MLAs and Party officials prior to the formulation of NDP policies and plat-

The 65th annual Family Fair at PSS April 21st filled PSS gym with many things to see, do and purchase with all funds collected going to supply Grad Class of 2016 students with bursaries to assist with furthering their education. \*

# **Living Past 100**

## **Happiness Leads To Health**

There is one nation in the world which was founded on the right to pursue happiness. This is kind of an odd thing to put in a national constitution, but it was an intelligent thing to do. Medical studies today show happiness is a major factor in healthiness.

Longterm studies indicate being happy is good for your health. That is, your body heals itself through chemicals it produces when you are happy. Being happy reduces blood pressure, speeds healing through strengthening the immune system, and actually helps you live longer! Happy people live seven to 10 years longer than average.

The big problem with most people is discovering how to be happy. This is such an important search that there are all sorts of books written about this subject and Dr. Phil has an online training course http://imagined.org/ you can take to help you find happiness.

Happiness is a product of knowing who you are, knowing what you want out of life, and working toward your goals in life. Happiness comes from thinking well of yourself and living up to the best expectations for yourself. Unhappy people often think "I'd be happy if only..." For some people, it is buying something, but an object does not make you happy. An object will not help you live up to the best expectations you have of yourself. For other people, happiness means finding somebody who loves you. There is an old saying that to find somebody who loves you, first you must love yourself, so it all comes back to thinking well of yourself.

Happy people are people who enjoy life, enjoy other people, and look forward to the future, believing there will be more happiness. They deal with problems, problem people, illness, grief, and all kinds of upsets, with confidence, because they think well of themselves. They are not afraid to be themselves, and be the best they can be.

Then they live healthy lives, and long lives.

Columbia to support artists, arts activities and culture in 2015-16.

As B.C.'s lead agency for arts funding and development, the council enlists the expertise of British Columbia's artists and arts administrators to evaluate grant applications through a peer review process independent of government.

#### Quick Facts:

The B.C. government is spending more than \$60 million on artists, arts and culture organizations in 2016-17, including about \$17.5 million in community gaming grants.

In 2016-17, the B.C. Arts Council, an independent agency funded by the Government of British Columbia, will provide \$24 million to help artists and cultural organizations flourish in communities throughout B.C.

Since 2001, the B.C. Arts Council has distributed about \$259 million, provided by the B.C. government, to artists, arts groups and cultural organizations across the province. *Learn More*:

For more information, go to the B.C. Arts Council's website at: http://www.bcartscouncil.ca.

form for the 2017 BC election." According to Lali, the Rural BC conference is designed to bring together Leader John Horgan, NDP MLAs, community, labour, Aboriginal and business leaders, expert speakers, activists, workers, supportive businesses and stake-holders, and youths under one roof; to have an open exchange of ideas on government and opposition policies and important social and economic issues affecting workers, businesses, communities and middleclass Rural British Columbians; and to chart out winning strategies for the next Provincial Election.

"Resource-rich Southern Interior BC is vital to the economy of our province," added Horgan.

"It is important to hear the positive views and ideas put forward by those who live here and work here."

Lali and Abramsen will open the conference on Friday evening, May 6th with an Opening Address by Grand-Chief Stewart Phillip on the recent Tsilhqot' in Supreme Court of Canada decision in 2015. NDP Leader John Horgan will speak at the Friday night fundraiser and give his Keynote Address on Saturday afternoon.

7

"The conference will include policy sessions and discussions on economy and jobs, green technologies and environment, future of BC Hydro, agriculture, transportation and highways, justice for Aboriginal people, justice for workers, social justice, health care, education, and post-secondary education," said Abramsen.

The two-day conference is sponsored by the SIRC-NDP and hosted by the Fraser-Nicola NDP.

One does not have to be a member of the NDP to register as a delegate.

Anyone interested in attending may do so by contacting Kim Sekhon (778-245-2469) or Harry Lali (250-280-4338). Registration is only \$50 for the two-day conference. -submitted

# Fraser-Nicola grants fight invasive plants

.....continued from Page 4 also disrupt natural ecosystems, reduce biodiversity, increase soil erosion, alter soil chemistry and adversely affect commercial crops.

This funding is in addition to the \$935,000 already allocated by the Ministry of Forests, Lands, and Natural Resource Operations for invasive plant control and management in 2016-17.

Quick Facts:

The provincial Invasive Plant Program identifies sites where new invasive plant species have been found and responds rapidly to contain and eradicate them before they become established and start spreading. Currently, some of the targeted invasive plant species in B.C. are marsh plume thistle, European common reed, garlic mustard, knotweed, Spartina, orange and yellow (nonnative) hawkweeds, knapweed, giant hogweed, blueweed, common tansy, tansy ragwort, hoary alyssum, field scabious, leafy spurge, purple loosestrife, yellow flag iris, Himalayan balsam and Scotch broom. Vermilion Forks Field Naturalists

# Hiking Along the Historic VV&E Railbed - Part 2

## by Janis Wright, VFFN

Vermilion Forks Field Naturalists continued our trek along the old VV&E (Vancouver, Victoria and Eastern) railway bed on Saturday, April 16th. We had walked a stretch of it between Princeton and Hedley earlier this month, and on this occasion started at the Red Bridge, west of Keremeos. Six club members cycled a longer

route than that of the eleven walkers, but we all started together and were once again blessed with blue skies and warming sunshine. As we headed eastwards we passed through fragrant, new riparian growth along the river, and eventually were surrounded by aromatic, beautiful blossoms of the fruit trees in the many orchards of the area.

It was a lovely morning, and along our route we encountered a sweet alpaca guarding a herd of sheep, a foal frolicking with its mother, thousands of turkeys and an impressive selection of birds. We observed 20+ species, among them Wood Ducks, Cliff Swallows, Eurasian Collared Doves, a Belted Kingfisher and California Quail, while one of our avid birders spotted 3 flocks of Sandhill Cranes flying overhead!

Once into Keremeos we walkers continued along the river dyke, and met up with the cyclists at Pine Park (which we had to ourselves), where we relaxed and enjoyed our lunches. Once again we parted as each group headed back, somehow managing to arrive at our vehicles at approximately the same time! The walk was just under 10 kilometres, whereas the cyclists incorporated some of the village's quiet side roads in their extended "Tour de Keremeos."

Our next field trip will be a com-

bined outing with visiting field naturalists from Langley, a birding expedition that will be led by Tip Anderson and take place at Wolfe Lake on Saturday, May 7th. We will meet at Billy's Restaurant parking lot at 9:00 AM with food and drink.

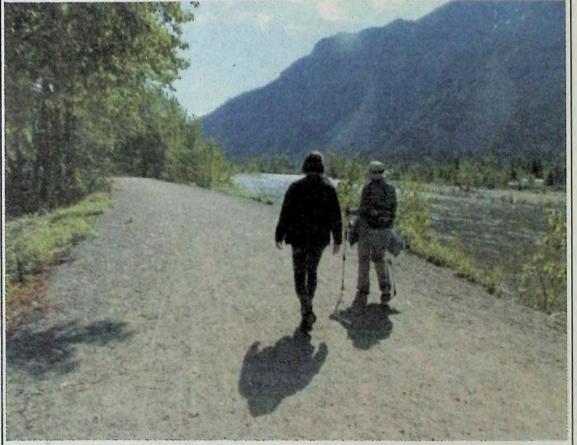

Our next meeting will take place Tuesday, May 10th, 7:00 PM at Riverside Centre, with Lisa Scott local biologist and expert on invasive species' as our guest speaker. Please join us for field trips and meetings, and check our website at www.vffn.ca for further information on our club.

# Saving Downtown Princeton...

# ...An Ongoing Series by George Elliott

What does the high school Family Fair have to do with downtown business?

Well, quite a bit actually.

Princeton Secondary School's 2016 Grad Class hosted the 56th annual Family Fair last week. The Family Fair has been a local traditional that was originally started as a fundraiser by the school PTA. Over the years it shifted to the responsibility of the graduating class.

Although the event runs for just a

FAX SERVICE

couple of hours during one afternoon, it generates a great deal of revenue, which is turned into bursaries for Grade 12 students. The bursaries, along with other scholarships and bursaries, are all presented during the PSS graduation ceremonies. These monetary awards help local students with costs associated with post-secondary school education. I would suspect for many of the students who receive these bursaries that they make the difference on whether or not post

secondary school will be pursued.
I did not receive a single bursary
in my graduating class and my parents were what I would call lowermiddle class so post secondary
school was way off the chart for me.
It meant entering the workforce
right out of high school with the
hopes of finding a rewarding career
path without the added bonus of
extra education.

Today's world is very different to the one I encountered as a member of the KLO Secondary School Grad Class of 1978 in Kelowna. There were several job options in my hometown.

As that is not exactly the case in Princeton, many grads will end up leaving the Similkameen and very few will ever return. I can count on

ou

ube

one hand the number of former PSS graduates I know who have left Princeton and come back. The number is even smaller of those who came back and started businesses in the community.

I really think there is a serious 'missing link' between graduation and starting a business in Princeton. The more entrepreneurs we have in the downtown core would enhance the shopping and service selection for the rest of us. The more entrepreneurs attracted to downtown Princeton would create additional jobs and perhaps encourage other future PSS Grads to consider the benefits of setting up a business in a small town.

The Family Fair does carry that message, although it is subliminal

**PrincetonBCNews** 

at best. All the revenue collected from the single afternoon event comes from within the community. It comes from students' neighbours, friends and family members as well as residents and business owners who have no family tie to any of the students. We all support it, year after year, because we believe in the young people coming out of our high school. We want them to look back one day and think fondly of Princeton as the place that helped them move on instead of the place they couldn't wait to get out of in order to move on.

There's a lot of compassion built into this 'donating to students' concept of Family Fair but it doesn't end there. Princeton and area residents rushed to the aid of locals who lost belongings in a downtown house fire last week. Nobody really cares what the circumstances were around the fire because the main thing was to make sure everyone ......continued on Page 20

Keremeos - Cawston - Olalla

repairs roads, thanks Legion Village

The Village of Keremeos released this notice last week regarding road reconstruction projects:

"Please be advised that the Village of Keremeos will be undertaking works starting within the next couple of weeks to upgrade the following portions of road:

- 4th Street between 11th Avenue and 12th Avenue

- 6th Avenue between 6th Street and Highway 3

will be made to minimize disruption and inconvenience to property owners residing within these areas. Residents in these areas should be prepared to make arrangements to mitigate these disruptions."

The Village also issued a statement of thanks to the Royal Canadian

Legion for their recent contribution. "The Village of Keremeos would like to acknowledge the generous support of the Royal Canadian Legion Branch No. 192 for their contribution toward the reconstruction of the Cenotaph located at

Memorial Park.

construction to rebuild the stairs and railings at the Cenotaph to both enhance its aesthetic appeal while making it safer for patrons to visit. The Royal Canadian Legion Branch No. 192 was integral to the completion of this project by providing a \$500 donation to offset the cost of staff time and materials required for completion of this work.

"The Village wishes to acknowledge this important contribution as it demonstrates the Legion's strong commitment to honouring the legacy of our local veterans and reflects the organization's ongoing support for the community they serve."

For more information about the Village of Keremeos, visit their website located at www.keremeos.ca.

#### The "male" pistachio flower is decidedly different than the female. Pollen from a male pistachio can fertilize up to 20 females, and thus the males are interspersed throughout the orchard, Both male and female trees must be present in order for the fruit to set. Pistachios don't require a lot of water: they can go without water for 2 or 3 weeks. This male is expected to pollinate up to 20 female trees at the orchard of Donald and Barbara Mace near Cawston. Photo: Arlene Arlow

"During construction, every effort

1102

Tuesday, April 26, 2016

Donald and Barbara Mace from Cawston are pleased with the progress thus-far on Canada's only Pistachio Farm. Donald drove to California in 2015 to pick up the seedlings and also took a course while in the USA on growing pistachios. This year it looks as though some of the trees may actually bear fruit (the fruit of the pistachio is considered to be a "culinary nut" which equates to a fruit). Donald and Barbara plan to lay tarps on the ground beneath each tree once the trees are ready to be harvested: pistachios are harvested by shaking the tree that they grow on. Mother Nature has surprises: one of the seedlings that looked like it didn't survive the winter presented fresh buds just the other day! Photo: Arlene Arlow

# Village issues council meeting highlights

Council highlights are a brief summary of meetings of the Keremeos Village Council. If you require an official record, minutes are posted to the website.

Here are the highlights from the Village Council meeting of Monday, April 18, 2016. Presentations and Delegations FortisBC Conservation and Energy Management Group - Council was provided with an overview of the Energy Conservation Assistance Program for 2016.

#### Correspondence

Healthcare Travelling Roadshow - Council approved a donation up to \$300 to organize a dinner on May 20, 2016 for presenters at the Healthcare Travelling Roadshow's visit to Keremeos. Keremeos & Area Ambassador Program

- Council approved a request for gratis use of Victory Hall on May 14, 2016 to host a Talent Event and May 22, 2016 to host an Ambassador's Ceremony and Dance.

#### Reports

Proposed Placement of Age-Friendly Outdoor Exercise Equipment in Memorial Park - Council approved the AgeFriendly Outdoor Exercise Equipment Committee's proposal to place the proposed exercise equipment in Memorial Park North of the Swimming Pool and South of the Gazebo.

# Bylaws

2016 Financial Plan Bylaw No. 822, 2016

- Council gave the Bylaw first, second and third reading. 2016 Tax Rate Bylaw No. 823,

2010 10 Rate Bylaw No. 825, 2016 - Council gave the Bylaw first, second and third reading.

Zoning Amendment Bylaw No. 778-06, 2016

- Council adopted the Zoning Amendment Bylaw (See March 7, 2016 and April 4, 2016 Council Minutes for more detail).

The next Council meeting will be held on Monday, May 2, 2016. Please refer to the Village of Keremeos website at www.keremeos.ca for details.

The Similkameen Valley's only truly authentic Thai Massage. Thai owned, operated and trained.

721 11th Avenue Keremeos, BC 250-499-0007 BY APPOINTMENT ONLY www.LannaThaiStyle.com

The female pistachio produces the fruit. The pistachio tree is native to western Asia and Asia Minor, from Syria to the Caucasus and Afghanistan. The University of California and the California Pistachio Research Board are a wealth of information. This specimen is one of many on the farm of Donald and Barbara Mace near Cawston. Their farm is the first commercial enterprise of its kind in Canada. Once harvested, the fruit must be removed from the husk within 24-48 hours in order to be considered top grade. Fruit that has blemishes is sometimes dyed using red vegetable dye. Photo: Arlene Arlow

John Allison School invites you to their 'Spring Fling Vendors Fair' on Saturday April 30th. Join in for a fun day of shopping with Princeton's local vendors and crafters. The BBQ will be set up with delicious smokies donated by Doug's Homestead, there will be basket draws, raffles and door prizes.

This event is a fundraiser for John Allison School, whose Parent Advisory Committee is working hard raising funds for new playground equipment. Play is important, so is cooperation, and inclusion. With the current equipment, a limited number of children are able to play on any given piece of the current set up.

John Allison school has seen a surge in enrolment, which is a wonderful thing, the goal is to allow all young children the opportunity for engaging play for everyone. The school PAC committee and Bill Lawrence, the schools Principal have been working hard at finding the perfect piece of equipment for the kindergarten to grade three students. With aspirations for a large multi level unit. The installation of the equipment will be donated in kind by School District 58.

Looking forward to seeing everyone on April 30th for this fun community event! - submitted Flip of the Coyne

...continued from Page 3 I talked about clustering businesses that complement each other within a niche market last week and this is a perfect example of where clustering would be most beneficial. We don't necessarily need ten of the same businesses but we may need ten different services or suppliers that would feed off that one tourism something. It also means that it doesn't all have to be within Princeton itself. We could have businesses from Hedley to Manning Park all servicing this industry and by working together across administrative boundaries.

As one community we will get much farther ahead than by Princeton going it alone. We need to not look at each other as competition but as partners. Our Valley has businesses and services that complement each other. We are not the richest communities in the province financially, but working together we can do a lot more and make our money go a lot further if we work together. We are one valley, and although we are technically many communities on paper, we can be one community working cooperatively for the best interest of the entire community.

# Saving Downtown\_

.....continued from Page 17 was fine and that their living needs were met.

This is one of those things I have written about frequently about Princeton. Even when I get frustrated about my life in this little town I remind myself of all the good things about this place and it gets me through.

Family Fair was one of the things that reminded me why I like living here. A lot of us want to see successful futures for our graduating class because, in reality, they are our future leaders.

One of them may even come back to Princeton and get elected Mayor.

One may move back and start a new, local industry. One may come back and start a business in downtown Princeton grateful for the opportunity to give back and make a difference in the community that gave so much to them.

How does this save downtown Princeton?

Our local youth need to see the positives and not the negatives that are obvious in a small town. It's not always easy to see if the bigger nearby cities are the main draw. We all need to support local youth and show them benefits to becoming part of the community they have grown up in and that opportunities do exist in the world of business.

Maybe this may be enough to encourage some former graduates to come back, raise a family and contribute to the local economy.

made with strawberries and red Thai peppers?
